For the Present of \$5,000,000 to Chicago Concern.

THE SENATE REFUSES TO LISTEN TO IT.

Washington, July 21 .- (Special.) -congress might be in session several weeks et. A deadlock over the five million dol lar world's fair appropriation is prob-

Whether such can be broken by an agreement of some kind is merely a matter of conjecture.

The Sunday civil bill continuing the appropriation put on by the senate, and agreed to by the house, is in conference. Messrs. Holman and Sayres, two of the house conferees, will never agree to it. On either Saturday or Monday, the conference committee will report to the two uses that they have failed to agree. another vote will be taken. Naturally the senate will decide to recede from its adoption of the appropriation. What the house will do no one knows. On Tuesday the appropriation was defeated in the house by but twelve majority. Since that time the world's fair lobby has been doing effective work. Several members who voted against the appropriation have gone home, and the world's fair people claim they will have enough votes to carry the appropriation through when another vote is taken. Even though they had the votes the chances of the world's fair getting the money are but slight. There are fifty southern members who declare it shall never go through. They assert that they will fillbuster all summer before the house shall make the appropriation. In the first place they declare it would be an unconstitutional act, and again they argue that they would have no explanation to make to their constituents why they should deed money to a Chicago corporation without collateral, and refuse to lend the farmer money on his cotton as security. The government, they also say, has no right to go into partnership with a private corporation, and indeed the op-

tion put forth many strong arguments gainst the appropriation. The indications are that it is going to be a long and stubborn fight. The world's fair people are here in great force, and are bringing strong influence to bear, but the opposition is determined to defeat it, notwithstanding the personal sacrifice they might have to make in keeping congress in session several weeks

or representatives and the world's fair managers shook hands and made up today, although there was every indication yesterday that a serious breach would occur.

Early in the day Messrs, Haves, Deolin and White, representing the executive board of the Knights of Labor, met President Palmer, Director General Davis, Secretary Dickerson and General St. Clair. Instead of the bad blood which was expected everything passed off smoothly, and within half an hour explanations had been made which satisfied both sides. The representatives of the Knights of Labor were displeased because they had not received a copy of the resolution passed last month by the local authorities in Chicago, pledging recognition to labor, agreeing that aliens should not be employed, and that the authorized representatives of the Knights of Labor should at all times have free access to the world's fair grounds in order to detect any abuse of their rights. A certified copy of the agreement of the local authorities was given them, together with the following letter written by Director Gen-

eral Davis:

Washington, July 19.—John W. Hays, General Secretary and Treasurer of Knights of Labor.—Dear Sir: I take great pleasure in assuring you that the stipulation and agreement contained in the letter of June 21st, addressed to you by W. T. Baker, president of the World's Columbian exposition and approved by the directors of the said corporation on June 22d, will, in all respects, be faithfully kept and carried out. Very truly yours, GEORGE R. DAVIS, Director General.

With the assurance of the local and the national officers thus secured, the Knights were entirely satisfied.

Mr. Deolin asked for an explanation, owever, of General St. Clair's statement esterday that \$10,000 had been asked by ights for Knights of Labor peti lons favoring the world's fair appropria-ions. yesterday.
"Mr. Cleveland," said he, "is con York for him is wonderful, and Mr. Cleveland naturally feels gratified. I had a talk with Mr. Croker, the grand sachem of Tammany hall. He was with Mr. Cleveland yesterday, and is now as en-thusiastic for him as Whitney himself. Croker told me that Tammany would poll every vote it could control in the state, and that Mr. Cleveland's majority will be as large as that given Flower for governor last fall. Everybody in New York believes Cleveland will be the next president."

The advocates of the anti-option bill are beginning to realize that there is but little hope of their pet measure becoming a law. There are enough votes in the senate to pass it, could a vote be had, but the opposition will not allow a vote. They claim it to be a bad bill; that it will not remedy the evil, but, instead, in its present shape, it will prove disastrous to the class intended to be benefited. Believing this, they want full ebate on the measure in order that its faults may be exposed. The speeches against it have been strong, and the opposition claim there are stronger ones to come. Under the rules of the senate, debate can go on indefinitely, and the prospect are that the senators opposing the measure

will keep it up until adjournment. The democrats here are delighted with the big celebration in New York last night. Congressmen who went over were amazed at the enthusiasm displayed, and even thos democrats who opposed Mr. Cleveland's nomination declare now that the convention was wise in its act. They believe New Nork will give Cleveland 20,000 majority. E. W. B.

### - WHAT THE HOUSE DID.

Several Reports from Committees Presente and Acted Upon.

Washington, July 21.-The regular order in the house was the motion of air. Warner to lay on the table the bill called up by Mr. Hatch, to provide a uniform standard classification and grading of wheat, corn, oats, barley and rye. Opponents of the measure refrained from voting, thus breaking a quorum—the vote by letters being announced 7 to 121. The hour accorded the committee of agriculture having expired, the bill reed its place on the calendar.

Mr. Blount from the committee on foreign affairs called up the bill to enforce reciprocal commercial relations between the United

States and Canada.

Mr. Blount said that the president had in two messages called the attention of congress to the fact that notwithstanding the treaty rights American citizens were the treaty rights American citizens were discriminated against in the matter of transportation through the Welland, St. Lawrence and other canals. Rebate was accorded to Canadian vessels, which was not accorded to American vessels. This bill was designed to require that this discrimination should be abolished and that the treaty rights of American citizens should be preserved. The bill was passed without division. ### THEY CAME TOGETHER.

The Alabama Campaign Growing in In

Birmingham, Ala., July 21.—(Special.)—The Kolb people had a grand rally at Tuscaloosa today. The leading orator was Colonel P. G. Bowman, chairman of Kolb's executive committee. During his speech he spied Major W. H. Gorman, who was a Kolb man before the bolt, but is now stumping for Jones, sitting on a balcony some one hundred feet away. He called him over and asked him if it were true that he (Gorman) had charged him (Bowman) with having gone to Washington recently to get money from the national republican committee, and to sell out the democratic party? Gorman replied no, but he had nsked his audience if they didn't believe that was what Bowman went to Washington for.

"Now." said the major, who had come on the stand, "I ask you here and now if you didn't go for that purpose?"

At this Bowman reached for the water pitcher and struck at Gorman, and at it they went in lively style. The crowd went wild with excitement, and was about to engage in the fight between the champions when cooler heads separated them and peace was restored.

Washington, July 21.—The president sent to the senate today the following nominations: Andrew D. White, of New York, envoy extraordinary and minister plenipotentiary of the United States to Russia; A. Loudon Snowdery, of Pennsylvania (now envoy extraordinary and minister plenipotentiary of the United States to Greece, Roumania and Servial, to be envoy extraordinary and minister plenipotentiary to Spain; Truxton Genie, of California (now minister resident and consul general of the United States to Persia), to be envoy extraordinary and minister plenipotentiary to Greece, Roumania and Servia.

The World's Fair Bill.

Washington, July 21.—Absolutely nothing has been done as yet by the conference to the world's fair items in the bill, which are the main points of difference between the two houses. The world's fair items will be left to the very last and it is the intention of the conference not to take them up until a practical agreement is reached on numerous other items of the bill, on which there is at least a formal agreement between the second house.

The list of dead so far includes William Christie, engineer of the passenger train; Will Hardy, fireman of the special; and an unknown child. Seven persons were injured, two probably fatally.

New York, July 21.-Nearly all the nembers of the national committee and a great many democrats from other states who were at the Manhattan Club reception last night, as well as local celebrities, called at parlor 38 during the morning and shook Mr. Cleveland's hand and chat-

ted about the campaign.
One of the amusing incidents of the day was the meeting of the ex-president and Editor Clark Howell, of The Atlanta Constitution. Mr. Howell is the national committeeman from Georgia and, of course, observing the proprieties of the occasion, called with his fellow members upon the

New York, July 21.—Grover Cleveland and Adlai E. Stevenson smoked tonight the calumet with the Sagamores of Harlem, where a reception was tendered the two lenders of the democratic party. It was a great time for the people of Harlem, and not a democrat of any note in the annexed district was absent.

Responding to welcoming addresses, Mr. Cleveland said:

I came here tonight to see you—if not to talk to you. At the same time I can hardly do less than to thank you for this warm and cordial welcome. I witnessed last night in the lower part of town a manifestation that was evidence to me that the democrats of New York were fully alive to the questions and duties involved in the campaign.

Tonight I see another manifestation which rather confirms my views on the subject. So far as this is personal, it is exceedingly gratifying to receive your hearty welcome from the democrats of the city of my home. As a democrat I am very pleased because it affords me evidence that democracy is alive and earnest in the work it has in hand. As a citizen I am pledged because I am confinced that the supremacy of democratic principles is necessary for the interests and welfare of my country.

I am a democrat. I feel very much at home here tonight, because I am among democrats. I have forgotten that there was any difference of opinion. (Here the speaker was interrupted by cheers.) I observe I am a democrat and believe in democratic organization. I hope to have the opportunity of grasping as many of you by the hand tonight as possible, that we may pledge to each other that fealty which is necessary to secure that election which our party demands and which will be an earnest one of the victory to come.

General Stevenson's Speech.

There was more applause upon the conclusion of the ex-president's little speech and when it was over General Stevenson said:

Mr. S. P. Sheerin was re-elected secretary and Mr. R. B. Rosevelt elected treasurer.

Election of a Chairman.

Election of a Chairman,
Immediately after roll call, Calvin S.
Brice, chairman of the former committee,
reiterated his former declaration that he
did not desire to be considered a candidate
for re-election. He made a brief speech
thanking the committee for the past honer
conferred upon him and pledging his services as a member always at the command
of the committee and party. Messrs. Gorman of Maryland, Ransom of North Carolina, Thomas of Colorado and Whitney of
New York, all made brief speeches in commendation of Mr. Brice's past service to
the party.

"I was very anxious," said Mr. Whitney,
"that Mr. Brice should remain at the head
of the national committee and again take
the leadership in the campaign, if he would
consent to do so. But he declined, and it
was only on his positive declination that I consent to do so. But he declined, and it was only on his positive declination that I, for one, consented to turn elsewhere for a chairman. I knew of the magnificent services that Mr. Brice has rendered and I earnestly, but vainly, urged him to allow his name to be again presented, but for reasons satisfactory to himself he has declined and we must accept his decision."

At this juncture Mr. Brice retired from the chair and Mr. Sewall, of Maine, assumed the gayel.

the chair and Mr. Sewall, of Maine, assumed the gavel.

Mr. Tarpey, of California, then introduced a resolution extending the thanks of the committee to Mr. Brice for his earnest and able services of the past. It was adopted by a rising vote and on motion of Mr. Clark Howell, of Georgia, the veil of secrecy was removed from this part of the proceedings.

proceedings.

Mr. Brice now resumed the chair and declared the election of chairman of the national committee to be in order.

Mr. Whitney at once moved that W. T. Harrity, of Pennsylvania, be selected chairman, and there being no other nominations, Mr. Harrity was selected by acclamation.

Mr. Harrity's Speech. On assuming the chair Mr. Harrity said:
Gentlemen of the Committee—I am extremely grateful for the distinguished honor which you have, unworthly I fear, bestowed upon me. The only return I can make at this time is to promise to use my best efforts to aid in achieving success for our party, its principles and its candidates. They deserve success. The people expect them to win, and it will be your duty and mine to see, as far as in our power lies, that the people are not disappointed in such expectations. I confidently believe they will not be.

I am deeply sensible of the great responsibility devolving upon me as chairman of the democratic national committe, and I am not at all unmindful of my own shortcomings. For this reason I will need, and will not hesitate to ask, your aid and your indulgence. I am sure that I shall feel obliged to lean heavily upon the members of this committee during the conduct of the present campaign, and I am equally confident that you, each and all of you, will give me assistance and support.

AWAITING THEIR AUTOGRAPHIC TOUCH.

A New Fad Strikes the Women of Washington,

THAT OF THE AUTOGRAPH SKIRT.

Mrs. Taylor's Method of Getting Ahead of Her Competitors in the Way of Getting a Relic.

Washington, July 21.-(Special.)-Mrs. Abner Taylor, the wife of the millionaire Chicago congressman, has initiated a startlingly unique fad, perhaps the most startling and unique ever inaugurated by a Washington society lady.

It is, in fact, a genuine fin de siecle. It has been customary for a long time here in Washington for ladles to secure the autographs of senators, representatives and high public dignataries in an album. Mrs. Taylor's ambition has outgrown the album stage. There is now passing through the house of representatives one of Mrs. Taylor's undergarments. which is technically known to the female sex as a skirt. A neat little note from Mrs, Taylor is appended, addressed to the representatives of the people in general, requesting each one of them to write his autograph upon the garment. She explains in the note that it is her purpose to embroider the names in silk with a view to possessing, when the ornamenta tion is completed, an autograph skirt of

the present congress. The passage of this linen affair from desk to desk through the house has created no end of amusement among the congressmen and many of the more modest of the people's representatives are anxiously inquiring where this autograph fad of the ladies is going to stop. When the garment reaches the senate, that august body will probably experience a shock from which it will take some time for it

A general hope is expressed among the statesmen on the hill that Mrs. Taylor's new fad will not strike the fancy of the rest of the fad-seeking Washington ladies. The Situation in North Carolina.

The North Carolina democrats are not feeling comfortable political outlook in their They feel that they are in danger of losing the state in November and that to hold it in line they will have to make a desperate fight.

Representative Cowles said today that he had not been in a position to judge of the situation for himself, as there was not much trouble in his part of the state, but that reports which he got from good men in the southern part of the state were not encouraging.

sage, in the last hour of the session today, of the bill to improve the harbor of Brunswick, Ga.

They also did energetic work to get through the bill, which was finally passed, to pension the old soldiers of the Indian wars. This bill passed the house some time ago. It was then loaded down with amendments in the senate, which would have defeated its passage for this session; but all the southern senators were greatly interested in it, and finally secured its passage without the senate amendments and just as it came from the house. Thus partial justice is at last done to these old

much per pound, or per bushel, on the quantity involved, and everybody who entered into such a transaction was to be treated as a broker, or a member of the stock exchange. Section 10 was a section of penalties to inflict fine and imprisonment on any person who violates the provisions of the act. From what code, Mr. Daniel asked, of the penal statutes did this free American republic gather the idea of piling up fine and imprisonment on transactions that were acknowledged to be legitimate; that were licensed by the government and favored by its patronizing power? He had been glad to hear that the senator from Minnesota was willing to have the twelfth section struck out, and when that was done it would be also necessary to strike out certain portions of the thirteenth section. He regarded the bill as an abuse of the power of taxation, and he would offer in connection with it an amendment to repeal the provision of the law imposing a tax of 10 per cent on the circulation of state banks.

peal the provision of the law imposing a tax of 10 per cent on the circulation of state banks.

Mr. White, of Louisiana, next addressed the senate in opposition to the anti-option bill. Mr. White's speech was a passionate and energetic arraignment of the bill as a usurpation of state's rights, as detrimental to the interests of the producers of the country, as an unwarrantable interference with the legitimate business of chambers of commerce and boards of trade, where buyers and sellers were on an equality, having equal access to information gathered all over the world, and where there was 'fair and square deal," and as an encouragement to "bucket shops." Mr. White did not conclude his speech, but, being fatigued, the bill went over. Mr. White will have the floor when it comes up tomorrow.

The house bill to enforce reciprocal commercial relations with Canada was laid before the senate and was placed on the calendar, taking the place of the senate bill on the same subject, which Mr. Frye said was almost identical with it.

The bills were passed granting pensions to survivers of the Indian war of 1832 to 1842, inclusive. The senate amendments to this bill were all withdrawn; the bill to provide for the improvement of the outer bar of Brunswick, Ga., was passed.

COUER D'ALENE MINES WORKING. The Rioters Arrested and Imprisoned-How They Will Be Tried.

They Will Be Tried.

Wallace, Idaho, July 21.—All is quiet here, and work has been resumed at all the mines in Coeur d'Alene. Wages have been fixed at \$3.50 for skilled miners and \$3 per day for shovelers. The presence of troops is a guarantee that the men can work for whom they please without becoming members of any organization. Breen, Dallas and Peynton, who, it is said, excited the rioting, have escaped to Montana. Requisition papers will be forwarded to Governor Toole, and their arrest will probably follow. Indications point to a general exodus into Montana of such union miners as have not yet been arrested. Although the miners' union in \outlier out d'Alene is completely broken up and the mine owners free of their halter, it will require the presence of federal troops for six months or more to insure workmen here immunity from attack.

One hundred men have been arrested at Wardner and there are 190 confined at Wallace. The prisoners will be taken to Boise in a few days to answer charges of contempt of court and will then be returned here to stand trial on several indictments.

Boise City, Ida., July 21.—United States Marshal Pinkham has zone to Coen.

How They Will Be Prosecuted.

Boise City, Ida., July 21.—United States Marshal Pinkham has gone to Coem d'Alene with warrants for eighty of the rioters, charging them with contempt of the federal court in having violated the injunction restraining them from interfering with the operations of the mines. The policy of the dederal officials, however, has been changed, and a new procedure will be inaugurated. The contempt proceedings are in the United States circuit court. Judge Beatty has no authority to call a special term of that court and the cases would have to be delayed until a term could be authorized by Justice Field. The men, after having been brought to Boise, would then have to be taken to Moscow for a hearing, making a tedious and expensive proceeding.

For this reason it has been decided to proceed against the offenders in the district court and charge them with the crime trict court and charge them with the crime of conspiracy in having conspired to interfere with the administration of justice. Judge Beatty can call a special term of this court when and where he will, and he will be asked to call such a term at Coeur d'Alene city. ### ALL AGAINST THE PINKERTONS.

Democrats and Republicans Agree in Their Antagonism to the System.

Washington, July 21.—The Homestead Pinkerton investigation will be resumed tomorrow morning by the special committee of the house committee on judiciary and the Pinkertons will be given an opportunity to explain and defend the workings of their system. Chairman Oates received a telegram from the Pinkerton agency saying that Robert Pinkerton would be present. The republican members of the committee agree with the democratic members in their untagonism to the Pinkerton system of sending armed men from one state to another, and both political elements on the committee appear to be close together in their opinions with respect to the powers and province of congress in the matters under investigation.

Chairman Oates's views have been stated. Democrats and Republicans Agree in Their

Chairman Oates's views have been stated heretofore. Mr. Broderick (republican), of Kansas, agrees with Mr. Oates that congress cannot interfere in the trouble between Carnegie and Frick and the workingmen, but can, because of the interstate principle involved, take some action on the Pinkerton system.

road.

Homestead, Pa., July 21.—This was the last day of grace allowed by the Carnegie management for the striking steel makers and other employes of the Homestead mills to apply for reinstatement. Scores of workmen were putting in applications for work, but it was not at the Carnegie office. Work was to be had for the asking at the rooms of the Amalgamated Association advisory board and at the headquarters of the mechanics and laborers further down the street. The Dwyer & Ingel firm of railroad contractors had made a requisition at both places for at least three hundred workmen and as many more as wished to come to help grade a new branch of the Pennsylvania line near Millville, a short distance from Homestead. The boon was readily accepted, chiefly by unskilled workmen, and the vicinity of the Carnegie offices presented a more deserted appearance than ever.

WHAT SMALL MAJORITIES HAVE DONE.

Conferring with the Anti-Parnellites in Regard to Their Intentions-Foreign News of Interest

London July 21.—Gladstone is communicating with leaders of the anti-Parnellite party in an endeavor to obtain an absolute assurance that that party will support him with its whole vote in an attack on the government by a "no-confidence" amend-ment. The negotiations are likely to be prolonged until matters are submitted to a plenary meeting. After parliament assembles, in return for the pledge of an un-broken vote, the section of anti-Parnellites a written assurance from Gladstone as to the time of the introduction of the home rule bill, with some modifications satisfac-

tory to the Irish.

Although Mr. Gladstone knows a flasco is certain without the full Irish vote, he has shown no symptoms of faint heart. Speaking to a little group at Kirkmicheal yesterday, while driving from Braemer to Pitlochry, he said: driving from Braemer to Pittochry, he said:
"Do not be discouraged because our nominal majority in the house of commons is not large. It will comfort you to know that I have sat in twenty-nve parliaments, and in five I have seen liberal governments in office doing a great deal of work for the country with not such a majority as has now been returned."

ow been returned."

The Pall Mall Gazette, commenting on the speech, suys: "nere is no sign here that Gladstone intends to postpone his home-rule measure, or to do anything cowardly or discreditable. On the contrary, he looks forward with zest to an interesting experiment of governing with a small majority."

A CLEVELAND ELECTOR WITHDRAWS

For the Purpose of Casting His Fortunes with the Third Party. Jackson, Miss., July 21.—(Special.)—The third party is making a determined stand in Mississippi and is going to fight for everything in sight. Frank Burkitt, state alliance lecturer, who advised the alliance to stand by the old democratic ship, and who sought to be and was nominated elector for the state at large, has withdrawn a few days since, without giving any definite reason. His paper, The Chickasaw Messenger, today, however, leaves no doubt but that he has gone over, boots and baggage, to the third party. The same paper contains a card from J. H. Jamison, president of the state alliance, who has passed for weeks has a candidate for the democratic party, and roundly abusing both old parties, which of course means that he will make the race as a third party man. It now appears that nearly all of the people who support the Ocala platform, but have heretofore acted with the democraty will vote for Weaver. Of course they will stand no chance to give the state to Weaver, but may prove troublesome in the fourth and fifth congressional districts.

The contest for the democratic nomination in the first district between John Allen and H. L. Muldrow, assistant secretary of the interior under Cleveland, is waxing warm, and victory is claimed by both. The primaries will take place on the 30th of the

London, July 21.—A crisis is threatened in the Lancashire cotton trade. The Federation of Masters of Cotton Spinners recommend that 10 per cent reductions be made in the wages of the operatives and that the mills be run on short time. It is thought the Amalgamata' Association operative cotton spinners will refuse to accept the reduction in wages, and a strike or lockout will follow. It was only a short time ago that a general lock-out was settled in the Lancashire cotton mills.

A CASE OF CONSCIENCE.

A New York Merchant Disgorges Ill-Gotten

Gains.

Nashville, Tenn., July 21.—(Special.)—E. J. Jordan, an aged and well-known citizen of Murfreesboro, has just received \$1,000 under interesting circumstances. Mr. Jordan was before the war, a leading cotton shipper, and dealt with New York parties. It seems that in some way the bookkeeper for the New York irm made a mistake of \$1,000 in favor of the firm. This was discovered by the head of the firm but he kept quiet about it. Recently, however, his conscience began hurting him and a week ago he wrote Mr. Jordan, telling the facts. The New Yorker also said that he was growing old and had pienty of money, in fact that he was rich, and that he felt that he onght to return the ill gotten money, and he requested Mr. Jordan to make a draft on him for the \$1,000 and that it would be honored.

The Three Parties in North Carolina.
Raleigh, N. C., July 21.—(Special.)—The political sensation today is the announcement by the republican organ, which has favored placing in the field a state ticket, that it has changed its view. It expresses itself as favoring the holding of a state convention, and of the nomination of electors and congressmen, but says that there should be a fusion on the state ticket with the third party. It concludes thus: "It is certain there will be two state tickets in the field that there will be three in not improbable. There is no doubt that the third party will be decided by the republican state executive committee at &s specially called meeting here next Thursday. It marks a new era in republican politics in North Carolina.

The Ocmulgee River.

Mr. George T. Harris, of the committee on Ocmulgee river navigation, read an interesting report, giving a full and very enraging statement as to the work that had been done in the past, and the possibilities of the future. The Ocmulgee river, he said, would doubtless be ready for naviga-tion between Hawkinsville and Macon on or before October 1st. Thus the city would be given water transportation to unswick, and this the committee, after careful calculations, had found would save to the city of Macon in freight rates alone the sum of \$500,000 every year. Mr. Harris urged the appointment of a committee to arrange for boats, after making full inquiry, and he urged the board to take prompt and ready action in support of the movement. Messrs. T. Harris and R. M. Rogers were appointed as a committee for the purpose osed, and with them the work is in

The Waterworks Question. The water question came in for a full share of comment. Messrs. S. R. Jaques and J. F. Hanson denounced the contract now existing between the city and the water company as iniquitous, and said that the private consumers and not the manufacturers who had been granted cial rates, would be the sufferers. There would be no satisfaction, he said, until the city of Macon, or its citizens, uld own its own waterworks, and he elleved that the board of trade uld have to take action in behalf of citizens in making the water company act up to its present contract, until such time as the people could become the owners.

The annual meeting of the Association of Confederate Veterans, of Houston county, will be held today at Perry. Captain J. L. Hardeman will deliver the annual address.

Rev. C. A. Evans, of Atlanta, who was first selected, found it impossible at the last moment to attend. Captain Hardeman, his alternate, was appealed to and promptly accepted. A rich treat is in store for the people of Houston, as the captain's reputation as an orator is well established in that community. His subject will be "Reminiscences of the Late War."

Colonel C. G. Duncan will be master of ceremonies, with Major Joe Palmer and Sheriff M. L. Cooper as marshals. President W. H. Norwood will preside.

Both the prisoners are darkies, one in on the charge of attempted rape and housebreaking, the other for larceny. The bloodbounds have been sent out and an effort will be made to recapture them.

them.

The last three grand juries have recommended some improvements in the jail, but the officers have given the matter no attention whatever. Judge Jenkins even went so far at the last term of court as to make suggestions in the way of improving the jail, but his suggestions were about as useless as the recommendations of the grand juries. Breaking jail is nothing new in Irwinton, as it has occurred several times before.

### THEY WERE MARRIED.

How a Young Couple in Rome Outwitted

the Old Folks.

Rome, Ga., July 21.—(Special.)—A bright little chapter in the romance of everyday life was brought out last Sunday. For some time past the heart of Mr. C. W. Nowlin, a stalwart swain of West Rome, had been turning with a longing love towards Miss Florence Harris, a dimpled and rosy maiden of the Flat Woods. But the old folks looked on the endearing attentions of young Nowlin to their daughter with the frown of stern disapproval, and took vigorous steps to dispel the golden rainbows of love's young dream.

When the services were ended and the old folks and the young were bidding each other adieu, the lovers quietly got into the buggy that was waiting for them and drove with haste to the residence of Judge Walter Harris in the fourth ward, and there by the authority in him vested as justice of the peace, he pronounced the words that made the twain one.

The Negroes Turn Out and Flog One of Their

Number.

Cartersville, Ga., July 21.—(Special.)—
The story has just come to the ears of the public of a modified form of ku klux among the negroes of this place: Winters Jackson, a negro man, was the victim the other night of a severe whipping at the hands of this gang, who were lying in wait for him. The charge against him was lack of attention to his family and a too general disposition to stray about. They whipped him until he promised to "sin no more." Some of the leading negroes of the city were engaged in the flogging, among them being J. Q. Gassett, a prominent republican politician and one of the recent delegates to the Minneapolis convention, which nominated Harrison. One branch of the case has been carried before the court and it is probable that it will all get there. Number.

### A FATHER'S CRIME.

A Thirteen-Year-Old Girl Makes a Terrible

Accusation. Fort Gaines, Ga., July 21 .- (Special.)-News reached this city late this afternoon of a most horrible and terrible crime com mitted five miles above here. Bill Hutchins, a white man, is accused by his thirteen-year-old daughter of having been guilty of incest repeatedly with her. Much indigna-tion is expressed and there is no telling what the developments may be. Warrants were not issued, as there was not an officer

who could do so in the city.

Tifton, Ga., July 21.—(Special.)—Mr. James Webb, father of Elder W. W. Webb who lives two miles east of Tifton, is old and blind, and has been slightly demented for some time. The poor old man got lost in Gum Creek swamp last Sunday and wandered to and fro across the stream for some time before he was found and carried home. Since that time he has been raving and almost uncontrollable, and it is probable that he will have to be carried to the asylum. The sympathy of the people of Tifton and entire community goes out to Elder Webb and his family in their sore distress. A letter was received from Comrade John W. Edwards, which was read and 6r-dered printed with these minutes:

Hall's Mill. Ga., July 15th.—To the Survivors of the Troup Artillery: I send greetings to you all, invoking God's blessings on you in all your deliberations. I regret that I am so situated that I cannot be with you today, for I feel that it would be the greatest pleasure of my life to press the hands of my old comrades. My official duties demand my service here. I ask to be remembered, and trust you will arrange to meet annually, so I may arrange to be with you yet.

Let us ever fondly cherish sacred memories of the past. While my blood is absorbed in the soil of Malvern Hill and Getrysburg. I have today no apologies to make, our cause was a just one. DR. BOND RETIRES

Lithonia, Ga., July 21.—(Special.)—The political sensation of the day is the withdrawal of Dr. W. P. Bond as a candidate drawal of Dr. W. P. Bond as a candidate for the democratic nomination for senator from the thirty-fourth district in favor of Colonel C. W. Smith, of Edgewood. Dr. Bond had the nomination within his grasp, and his withdrawal is a source of regret to his many friends who forced him into the race. Dr. Bond has declared all along that he did not care to be senator, his large business interests would suffer. He has twice been a representative of DeKabi in the lower house, and once a senator from the thirty-fourth, and never was defeated in a political contest. He is honored at home and abroad for his fearless stand for democratic principles. As an allianceat home and abroad for his fearless stand for democratic principles. As an alliance-man, he was a leader until the alliance made its bold break into the political arena. Dr. Bond fought the move with all his might, and when the mad folly of its mem-bers cast their soul and body into politics, Dr. Bond dropped the alliance, as did so many of its best members, and clung to democracy. All honor to men of such caliber.

caliber.

Had Dr. Bond continued in the race for senator, his election was a foregone conclusion. We are proud that Hon. Charley Smith is to take up the race where Dr. Bond laid it down. Though not so well known throughout the district as Dr. Bond, he will prove a popular candidate. He is a bright, brainy young democrat of the old-time style, and will do honor to the district as a senator.

BRYAN AND EFFINGHAM Will Stand Together for Wright for the

State Senatorship.

Savannah, Ga., July 21.—(Special.)—Bryan county, at its mass meeting yesterday, decided to support Effingham's candidate for the senatorship as long as that county kept one in the field, and delegates pledged to this course were elected. This is thought to insure Wright's nomination. Ex-Senator Peter W. Williams heads Bryan's delegation.

Local politics will not be unraveled until the returns are all in next Monday night. Major Ryals's friends are flocking to his support. The fact that County Treasurer Waring Russell is trying to defeat Ryals on personal grounds, is winning votes among the large class who object to Russell attempting to dominate local politics. The Russell faction, through the primary system, is apparently temporarily on top, and as a result there is already considerable inclination to kick over the result of the primary in case unsatisfactory candidates are the result of it.

The Situation in Schley County.

Ellaville, Ga., July 21.—(Special.)—The democracy of Schley met Saturday and decided to have a big barbecue on the 27th instant and invite Governor W. J. Northen, Emmet Womack, Robert Berner, Dupont Guerry and L. O. Niles. A good many of our people are running off aftes strange gods and we want the pure old Jeffersonian expounded so that he that runneth may read. The vote between white and black is about equally divided, and the white vote is divided between the third party and democracy, so it can be seen what will be the result if something is not done to get the white people together. The negroes have out a candidate for the legislature and it will take the united vote of the white people to beat him. The third party brethren say, "If you don't want a negro elected to the legislature vote with us." They don't claim that they can elect their man, but say they will prevent this county being represented by a democrat. The Situation in Schley County.

A farmer was standing at the foot of an enormous cornstalk. "How big is your corn?" asked a stranger. "I don't know," answered the farmer. "I sent one of my boys up to see a little while ago, and I'm worried to death about him." "How so? Can't he get back?" "No; that's the trouble. The cornstalk's growing up faster than he can climb down."

HE NEVER CAME BACK.

Another Man Who Has Deserted His Wife and Child.

Rome, Ga., July 21.—(Special.)—Yesterday morning a neatly dressed and comely appearing woman, accompanied by a little child, alighted from the incoming Rome and Decatur train at the North Rome depot. She was alone and evidently in trouble. Some kind-hearted bystanders offered their assistance and directed her how she could find her way to some representative of the city government. She was in great trouble, and her story was a pitiable one. Her name was Mary Smith, and she said that she had formerly lived near Marietta. She had been happy and contented in her country home, and had never dreamed of the trouble that would cloud her future. She had married a man she loved, but one who was unworthy of her heart and hand. They had lived together for a time most happily, but finally came discord, trouble and neglect.

A few days ago the recreant husband went with his wife and child to Bluffton. They went into the depot to wait for a train, and the husband made some excuse and left the depot. He never came back. The wife and mother waited long and sorrowfully, but he never came and no word could she hear of his whereabouts. To the city council of Bluffton she told the story of her desertion, and a ticket was furnished her to Rome, as she wanted to return to her old home, near Marietta. How a Doctor Made His Fortune When Land Was Cheap. How a Doctor Made His Fortune When Land Was Cheap.

Monroe, Ga., July 21.—(Special.)—An interesting figure in town is Dr. J. C. De-Laperierre, of Jug Tavern. His first practice of medicine was in Good Hope district, this county, in 1852. He soon removed to Dooly county and practiced his profession there and in Meriwether county until after the war. He purchased nine hundred acres of land lying between Jug Tavern and Jefferson for about two thousand dollars, and his profits from the sale of that at \$12 per acre started his fortune, which is now considerable.

# A ROBBER BAND,

Which Was Headed by Rev. John B. Keisler.

SOME STARTLING INVESTIGATIONS

Made by Detectives Shackleford and Wil-They Arrest Some of the Members of the Band.

Detectives Shackleford and Wilson have just returned from South Carolina, where they have finished working a most trouble-

some and puzzling case.

It is a case which they have had for over a month past, and they have just succeeded in bringing it to a successful termination. It is the case of the many mysterious robberies that have recently occurred near the line of Georgia and South Carolina.

The work of the detectives fixes the guilt of the mysterious burglaries upon a band of burglars headed by Rev. John B. Keisler, who was arrested here by Call Man John Abbott last week.

This robber band has been operating in Georgia and South Carolina, near the tine separating the two states, for some time, and the history of their depredations reads like a yellow-back novel as it is unfolded by the detectives.

The story of the arrest of the erstwhile nister on the charge of burglary was told in The Constitution when it occurred, about ten days ago, but the half was not told. Not a suggestion of the truth, as developed by the investigation of Detectives Shackleford and Wilson, was given.

John B. Keisler was a prominent Baptist

minister at Toccoa. He was pastor of a Baptist church there, and stood high. He went wrong; yielded to the temptation to drink, and fell. His downfall was rapid and complete. He became a confirmed drunkard, and went rapidly to the bad.

About two months ago the bank at Toc-

coa was entered by a band of robbers. The night watchman at the bank discovered the robbers, and while attempting to protect the bank was shot and killed. Two of the

the bank was shot and killed. Two of the robbers were afterwards lynched. Keisler was one of those implicated and narrowly escaped being caught. He left Toccoa and went to South Carolina. There he organized the band of plunderers and robbers which committed so many mysterious robberies in that state. Stores in many of the towns bordering on the line of the two states were robbed, and no clue to the perpetrators could be found.

The investigations of the detectives have made an open book of these robberies. The band, headed by Keisler, did the work. It was composed mostly of negroes. The stolen goods were carried through the country on a wagon and peddled out. Keisler carried a tombstone in the wagon, which he represented was intended for his father's grave, at Westminster, and in this way suspicion was avoided. Thousands of dollars' worth of goods were stolen in this way. Two or three members of the band who have been arrested by the detectives have "fessed up," and given Keisler, the leader and director of the band, away.

State Officials Gossip About the Opposition Ticket.

CONSIDERED WEAK, POLITICALLY.

Governor Northen Says That the Old Party Will Not Lose a Single State Officer.

The officers of the capitol spent a good part of yesterday discussing the third party ticket and the situation. Callers dropped in from all sections of the state, and the strength of the new party was talked over. Not a day passes that several representa-tive men from different sections of the state do not visit the capitol, and of course, mention the status of the parties in their respective localities. Hence the staterespective localities. Hence the state-house officers keep well posted on what is going on. They were not surprised at Wednesday's convention, and showed no signs of alarm yesterday. GEORGIA POLITICAL NOTES.

The fight for the democratic nomination for congress in the seventh district grows interesting. There are two, and only two, candidates for the prize, Hon. R. W. Everett, the present representative, and Judge John W. Maddox. Mr. Everett has never been back home since he stood up the first day of the fifty-second congress to take the prescribed oath. He has written home to friends asking that the nominating convention be not held until after congress adjourns, and he can return and give an account of his steward-

rapidly developed an enviable reputation and as he is a most popular man and official he will give Mr. Everett a pretty hard tussle

for the nomination. The Rome Tribune, dis-cussing the situation, says:

"Captain Felix Corput is certain to receive the nomination by the democrafs for senator from the forty-second district. But there is another Richmond in the field, to say nothing of the third party aspirants. Mr. Dave Shel-ton, the crack Floyd county farmer and prize-winner, wants to go to use senate and he is

A Middle Georgia Movement. We referred some time ago to the fac nat certain prominent citizens of Putnam inty were preparing to form a company or the purpose of improving the lands of that section and inviting a desirable class

The managers of the company preferred o begin business on a modest scale, dis-osing of the lands that have been subwibed before taking any more. They ropose to do this without the help of rowed capital, in order to fully and irly test the merits of their enterprise.

en the company's lands are disposed satisfactorily, the result will show that scheme is a success and that the plan, a its simplicity and reasonableness, will ppeal to outside capitalists who have ney to place in a safe investment, In er words, the managers propose to give tical demonstration of the success of elr enterprise, and thus take it out of catalogue of ventures. They propose make this demonstration with their capital and carry it through by their

When this is done-when the enterprise ias been placed squarely on its feet-then company will undertake to enlarge ad its operations by offering its took for sale. From present prospects next year the company will be able to its plan on a more extensive scale.

This plan is simplicity itself. The com y proposes to sell to white settlers lots d ranging from fifty to one hundred s, and place thereon a comfortable The rents now paid for such nds, with an addition of about \$10 each will procure a home in the most section of the state in ten years' e. Thus, instead of paying rent, the tler is purchasing a home in small inallments, and at the same time improvog it to suit his own ideas.

The lands thus far purchased by the any and offered for sale on such terms are in Putnam county. Put n has already become famous as a -raising and butter-making county t is the center of a section where bloodd horses and cows are raised; it is in the uda country. Putnam has raised re fast trotters and exported more but than any other county in the state: and it has been well said that land that Ill produce fine stock and golden but er will produce anything.

The movement which we have been de ag was begun not for the purpose making money. There is no taint of ulation about it. It originated in a re on the part of the leading cittof the county (Mr. Dennis, the presat, is a prosperous farmer) to fill up unty with a better and more thrifty on to take the place of the thrift class of blacks who migrate from to patch leaving the land poorer y year and tenantless at last.

trade from the north, and their patrioti would induce them to use home products and home manufactures with the exception of such goods as they purchased in the course of direct trade with Europe. Our readers have not forgotten the result. That editorial was reproduced everywhere, and the manufacturers, merchant and commercial bodies of the north rained their petitions down upon congress pro testing against the bill, and it was de

There was general rejoicing in the south, but hundreds of thoughtful citizens wrote to us, saying in substantially these words: "The policy you proposed would make our people independent, keep their money at home, and build up every line of industry as in the old days when our blockaded ports forced us to create home manufactures and patronize them It would make the south the richest country on the globe. Why wait for a force bill before making this effort for commer cial and industrial independence? Why not form a sentiment through our various organizations and agencies capable of influencing public opinion that will accomplish this desired end?"

These utterances contain the very pith of the whole business. If we can stimulate a local pride or patriotism that will make every southerner boast that he eats and wears and uses only the products and manufactures of his own bection there will never again be any scarcity of money south of the Potomac.

We have condensed a whole volume of political economy within the limits of this article. Why not take the lesson home with you and carry it into your daily life?

nandsome monument, recently erected in Oakland cemetery to the memory of the late William H. Clayton, suggests many sadly pleasant reminiscences.

The writer knew and loved William H Clayton long and intimately; and proudly cherished his friendship while he was with us; and now fondly treasures hi memory.

Mr. Clayton belonged to the highest and best type of Christian manhood. He was gallant soldier in war, and a model citizen in peace. Brave, and yet gentle as a woman, he drew all hearts to him and held them as by a magnetic spell. Devoted to his family and friends, non-

knew him but to love him. Coming out of the wreck and ruin of civil war, with a record of heroic patriotism, he entered the service of the Southern Express Company, and by sheer merit worked his way up until he became superintendent of its central division. In this high and responsible position, which he held until his death, he displayed remarkable executive ability, and the officials and employes of the company, as well as the outside public, regarded him with loving confidence.

This tribute in marble at Oakland, rais ed by the dead superintendent's brother officials and employes and other friends. fittingly commemorates the virtues of the

noblest of men. Our golden-hearted friend sleeps his last sleep, but his kind words and kinder deeds still gladden the hearts of those who knew and loved him!

The Suspension of Sentences.

A New York judge has decided that court has no right to suspend sentence. when a man is convicted, and hold it over him to insure his future good behavior The case will go to the court of appeals.

It is to be hoped that the court of appeals will reverse the decision. The practice of suspending sentences is a very old one. It is exercised in England and in every state, and it is rarely ever abused.

Sometimes it aids justice and benefits society to suspend a sentence, and it has doubtless led to the reformation of men who had thoughtlessly violated the law with no deliberate intention of doing

wrong. Nine times out of ten, when a judge suspends sentence, he knows what he is about, and we have never yet heard of one who exercised this clemency in the case of a really dangerous criminal.

No Explanation. Referring recently to the fusion move ment going on between the democrats and the people's party men in the north west, The Constitution asked why it is that the people's party voters are ready to fuse with the republicans to defeat the democratic party in the south, particularly when such fusion threatens to contribute to republican success. If republicanism is obnoxious to the people's party voter in the northwest, why should it not be just as obnoxious to the people's party men in the south where some of its direct

manifestations have been experienced? Mr. J. A. Fulton, of Dawson, who says he is a democrat and expects to remain one, undertakes to answer the question He says that "while the democratic party has controlled the south ever since the defeat and abolition of carpetbag rule, the common people—that is, the laboring class can see but little benefit they have received from such control. They claim that the wealthy, the educated, in short all those who do not earn their bread by the sweat of their brow, gobble up all the

offices and the spoils thereof." The same situation, with the parties reversed, exists in the northwest, and Mr. Fulton says this explains the revolt against the republican party there.

This explanation is very simple, but it fails to explain. In the first place the common people are not seeking office. They have never sought it to any great extent, and they are not seeking it now. In the second place, the people's party will have no more offices to give out than either of the old parties, even if it is suc essful. We have no doubt the leaders of the new party are seeking office; it is the traditional perquisite of those who parade as leaders. But it does not account for the attitude of those southern voters who have deserted the democratic

A. Hemphil's speech before the Troup Artillery:

"Mayor Hemphill, of Atlanta, one of the old members of the Troup Artillery, took the stand and held the entire audience spellbound during his speech. He spoke of the bravery of the gallant Troup Artillery, and spoke of Dick Saye as being the bravest of the brave, that he had on one occasion had a bomb shell to fall in the ditches with a fuse burning. Dick Saye saw the danger and jumped at the shell, picked it up and threw it over the breastworks, the shell bursting as soon as it struck the ground. The shell would have killed every one in the ditch if it had not been for the bravery of Dick Saye. He also mentioned Charley Oliver, a preacher who had rather fight than eat; C. W. Motes, of Atlanta, who could always be depended on when it took the most nerve to stay. Lieutenant Jennings, of Atlanta, received a good word from Mayor Hemphill about his bravery. Captain Callion, he said, was known in all parts of the world as the bravest of the brave. Joe Berry and Sergeant Dillard could be depended on to stay to the last in the hours of danger. party and are now trying to destroy it. Mr. Fulton then goes on to recite the defeat of the free coinage bill by a demo-eratic house, and declares that if he were nunting for reasons for deserting the democratic party he could find plenty of these But what is the remedy for the weakess of democratic congressmen in maters in which the people are interested? Clearly the remedy lies within the party tself. Hold the members to account;

but save the party. The farmers who are complaining so bitterly of the failure of party to bring about reforms have had control of the organization since the war. All that was necessary for them to

do was to insist on their views and see that their plans were carried out. If the men who are how working with the people's party had displayed as democrats one-half the enthusiasm which they profess to feel for the people's party the free coinage bill would have been adopted, and they would have had no reason to complain of the failure of the party to press their views. But the democratic party is superior

to any temporary issue that has arisen or that may arise. Those who are now deserting it in Georgia will come back to it. It is the true people's party. It is the party of the constitution. It protects the citizen in his personal rights and liberties. It stands between the states and federal aggression. Its representatives may make mistakes or be untrue to its interests, but the party itself will exist through all contingencies. It is the safeguard of the republic.

If the people's party shall succeed in crippling it, the voters, on whom the responsibility will rest, will rue the day when they exposed themselves and their dearest interests to force bill legislation operated by republican partisans.

The Madison Square Demonstration. The notification meeting in Madison Square was one of the grandest demonstrations ever witnessed in a political campaign.

All the diverse elements of American democracy were represented, and all were harmonious and enthusiastic, from Tammany to Texas, from Gray-Gables to Golden Gate.

The notification speeches, and the responses by Mr. Cleveland and Mr. Stevenson were notable addresses, and admirable from every point of view. Mr. Cleveland's clear and forcible pre

sentation of the evils of a robber tariff system was happily equaled by his vinging protest against the force bill as a measure likely to recall the "saturnalia of theft and brutal control" of reconstruction

His phrase, "Ours is not a destructive party" makes a winning campaign motto. There was victory in the air at Madison Square, and victory it must be!

The New York World says the repubcans are not defending the force bill issue. No, they are sawing wood and saying noth ng. It required a good deal of work to arouse the north in 1890, and we should be sorry to see the voters there sink nto apathy on that question. Keep it be-

The News says that, having secured the permanent military encampment at great cost, the county will fail to realize the proper benefit from it unless the coming legislature makes an appropriation for its continuance equal to, if not larger, than that made by the last legislature. To secure this will plainly be the first duty of the member to be elected from the county, and his qualifications for this purpose are the first things to be considered. The News adds: Can it be possible that Trox Bankston is the author of this candid paragraph, clipped from The Ringgold New South:

He appeared before all the meetings of the advisory board and is recognized all over the state as well as at home as being at the head of this most important and successful movement. It is therefore eminently proper and wise, in our opinion, that he should continue in this field of usefulness until the encampment becomes permanent in fact as well as in

TALK WITH MR. J. A. COLLINS.

He Is the Agent of the Home, Farm and Mortgage Division of the Depart-ment of Interior.

Is the number of home property owners in the United States decreasing?

That is a question of vital importance that is now agitating the minds of a great

held until after congress adjourns, and he can return and give an account of his stewardship to the people of the district. Mr. Everett's desire in this respect will be gratified, as the convention will not be held until the 24th of next month. Judge John W. Maddox is the other candidate. He has been making speeches over the district for some weeks, and mighty good and eloquent democratic doctrine has the popular judge preached. As a stump speaker Judge Maddox has ranidly developed an enviable reputation. many people.

If there is any truth in the statement it argues that the country is in a very bad condition, and unless a change is wrought in the situation, either by legislation therwise, the result will be unfortunate, if not deplorable in the consequences that will be entailed upon the country. Facts have recently been disclosed in

regard to the ownership of property in the north and west that are simply astonishing and a man who understands their full import cannot suppress a certain degree of alarm as he realizes the full extent of their meaning.

It appears from the authority of Mr. J.

ins, who is now in Atlanta as the agent of the home, farm and mortgage di-vision of the interior department, that the number of mortgages has greatly increased the last few years, and that the ownershi of home property in the United States is rapidly passing into the hands of European

ton, the crack Floyd county farmer and prize-winner, wants to go to the senate and he is very apt to contest with Captain Corput. It comes pretty straight that Mr. Shelton has been advised to keep out of the democratic convention and make the race as an inde-pendent. He has received assurances that he will get the support of the disaffected alliance-men and the 'niggers' if he will follow this advice, though just where the disaffected brethren live has not been clearly set forth. On the other hand Mr. Shelton has been warned that if he does keep out of the demo-cratic convention and trots by himself he will be sure to be kept out of the senate. The third party is on the still hunt, saying nothing, but not sawing much wood. Mr. George W. Fleetwood, so it is reported, is looking to-wards Atlanta and practising on the expres-sion: 'Mr. President.' Then Mr. Seab What-ley thinks the senatorial toga would fall grace-The foothold of British capital in south, however, is not so great as it is in other sections, and while a great many nomes are encumbered, the mortgages ar principally held by domestic capitalists, and is determined that Mr. R. D. Proctor shall be the candidate for the senate from the fourth senatorial district. This has complicated matthe money remains in the country for the enefit of the people.

But a large percentage of the mortgages in other parts of the country are held by foreign syndicates and wealthy individuals, belong to the rich nobility, who are freely investing their capital in American

real estate.

"I am here," said Mr. Collins, who was busily engaged in the tax receiver's office yesterday examining the returns of the county, "for the purpose of ascertaining the number of home places and farms that are free from debt, and also the number that are covered with mortgages. I am going about from state to state and am carefully investigating the records of each county for the purpose of finding out the exact situation of affairs."

"Have you found the home places and The Times views the matter from the following standpoint:

"If it is the purpose of the alliance to force the candidacy of Mr. Proctor without the nomination it ought to be declared. That he is not the nominee of the democratic party in the district is certain. The district convention, regularly called and organized, adjourned without making any nomination. The matter is in the hands of the district executive committee now, as if nothing had been done. It is the duty of that committee to declare no nomination made and arrange some plan for the selection of a candidate. If it is the purpose of Mr. Proctor to make the race anyhow, then he would certainly not be an eligible candidate before the primaries, if primaries should be ordered. If he is a conscientious man, and The Times has reason to believe that he is, he would not permit the use of his name. If he should submit his candidacy a second time to a primary, or other appointed means of selecting a candidate, and should be defeated and were after that, to enter the race, he would show bad faith. He would then be a bolter, an independent and not a democrat."

"Have you found the home places and farms of the south heavily mortgaged?"
"The returns for the southern states have not been tabulated, but the general situation is better, I think, in the south than in other parts of the country. The mortgages are held by home capitalists, and the aggregate debt which they represent are not so great as in other localities. The farmers are poor, in a great many districts, but they are poor, in a great many districts, but they manage to make their profits exceed their expenses and preserve their independence, which is better than a fortune encumbered

basis in fact. It must be nothing more than one of the many campaign rumors, manufactured for campaign purposes. Here it is:
"News comes from Baker county, considered by the third party as one of their strongholds, that Joe Neal, a negro politician, who will be remembered by the residents of Dougherty as having taken an active part in local politics when he lived here, is again on the political war path. This time Joe is to take a very peculiar part in the local campaigns, which is as leader of the negro voting contingent in behalf of Dr. I. H. Hand, who will make the race from that district for the state senate. Dr. Hand is a prominent third party leader in Baker and the adjoining counties, and the rumor is that he has agreed to run Joe Neal, who has become a resident of Baker county, on his ticket for the house from that county in order to get Joe to secure the negro vote for him in Baker county, in his senatorial race. This is rumor, but it is pretty broadcast and comes from a good source." 

per cent.
"A large number of the mortgages in the states are held by foreign syndicates, and the manner in which the poor, dependent farmers are ground to the earth is revolt-ing. It amounts to a system of slavery ing. It amounts to a system of slavery as oppressive as the feudal tenure of Eng-land. The necessity of having to mortgage a farm is bad enough in itself, but when mortgaged to foreign capital and to men who are utterly devoid of sympathy and feeling, it amounts to a great calamity."

Mr. Collins then went on to speak of the act of congress appropriating a dollars for the purpose of ascertaining status of home property in the country. rapidly as he finished his examination the books in each county he

rapidly as he finished his examination of the books in each county, he sent a full report of his work to Washington city, and the returns were filed in the department of the interior.

The condition of the country, as represented by Mr. Collins, who has carefully studied the situation, is certainly interesting. If the invasion of foreign capital continues for the next few years at the same rate, there is no estimating the evil that will accrue to the country. The situation in some parts of the west is almost as bad as it is in Ireland, and the question arises, in view of the of the west is almost as bad as it is in Ire land, and the question arises, in view of the rand increase of foreign mortgages, is England trying to purchase her way back into the ownership of American property.

Editor Constitution—Would it not sound a little odd to Atlanta people to be told that they must go into another county to find burial places for their dead? And why so? Has they must go into another county to find burial places for their dead? And why so? Has Fulton county no land to spare for such purposes, or does our city council prefer to turn the whole matter over to another county? Shall the great city of Atlanta be subject to the local authorities of another county in a matter of such importance to all her citizens? Is not such an idea distasteful to every citizen, and wouldn't it sound queer to strangers to tell them that the people of Atlanta had to be taken over into DeKalb county to find sepulture? Would not that he placing both the living and the dead of this city at the mercy of DeKalb county legislation? Would not all deeds to lots have to be recorded in that county? And would not all litigation or disputes have to be settled in the DeKalb courts? In short, would not that county have supreme control, in law, of the whole matter, notwithstanding any contracts which might be made between its present authorities and the present council of Atlanta? What citizen of this city would be willing to ratify such an arrangement?

Again. Is that the direction in which the citizens of north Atlanta, east, west or even of south Atlanta, would like to have the city cemetery located? Is not the location of Westview cemetery one of the strongest objections to it as a burial place? It is out of the line of travel and the way seems long and dreary. Does not every one who has Westview cemetery one of the location of jections to it as a burial place? It is out of the line of travel and the way seems long and dreary. Again. Did not Mr. Rice make a good point when he said the present council cannot bind a council four years hence? And does the city need 300 acres for a cemeter? Wouldn't much less answer for a century or two?

THE BEST YET.

Fay Templeton's Company Gave "Erminie" in Good Style.

In Good Style.

The Fay Templeton company missed it when they did not open their Atlanta engagement with "Erminie." The management had been wondering what was the matter. Last night with the perennial "Erminie," the boxes and the chairs were filled up and the interior of Desirve's house looked gayer than for a week. "Erminie" was a great hit. Though it has been repeated more times than any one remembers, it drew a crowd and was received with the highest evidences of favor. Had this opera or some other of kindred popularity been put on the first night Miss Templeton would have been turning people away. Fay did not assume the title role, but took the character Gavotte, and in a short dress and catchy way gave the part a new interpretation. She sang sweetly and was recalled several times. A sweeter Erminie or a more charming Cerise than Miss Lamont and Miss Weldon it would be difficult to find. Both are perfectly familiar with the opera, and they added much to the performance. Both are of strikingly attractive appearance. They have good volces and sing with fine expression. Both are excellent actresses, too.

All the members did well last night. They gave "Firmbure" in that spirited way which always enlists the admiration of an audience, and the appliance was lavish.

Mr. Charles Drew and Mr. Blaisdell were the two thleving adventurers, and a droll pair they were. Mr. Drew was suffering with a bad throat, but carried the part, Cadeaux, admirably.

Between the second and third acts the widows' dance was given by Misses Templeton. Clark, Smith, Blake and Guerand. The audience cailed the widows back three times. Then the burlesque was given by the male quintet, and Mr. Peter Dalley brought down the house by singing some verses about the Atlanta baseball team to the tune ta-ra-ra, etc.

The opera went off smoothly and was' better received than anything the Templeton

The opera went off smoothly and was better received than anything the Templeton company has been seen in here.

This company is fortunate not alone in principals, but in chorus, too, which gives the concerted pieces in brilliant style.

On account of the great hit which was made in "Erminite," that opera will be repeated tonight. A change of bill had been arranged for, but "Erminie" will be presented again.

Dan W. Rountree, the well-known Atlanta lawyer, whose office is in the Gate City National bank building, had a very strange call yesterday. He went to his office at the usual hour and was in the act of rolling back the cover of his cabinet desk, when lo and behold, he stood face to face with a great "hoo-hoo" owl, which sat upon the code of Georgia on the top of the desk.

The self-welcomed visitor sat there winking and blinking his great, kind eyes at the

and stepped back half in awe of the intruder.

The weird bird of darkness had flown in from the country—miles perhaps—the night before and, finding the window of Dan's office open, invited himself in and took the most conspicuous posture he could find.

Dan has looked the matter up in all the mythological dictionaries to be found and is in doubt as to the significance of this incident. Mythology declares the owl to be an emblematic bird of wisdom. The Bible says the bird is to be associated with desolation. Poets and story tellers introduce it as a bird of ill omen.

there waiting for his train to depart.

Reflective glances and conversational reviews of the day's doings, however, were galore. The old parties have taken on new life and renewed determination to go about the work of their respective conventions not far distant in the future, with a heartier zest than ever before, and if there is one good thing that this people's party convention has done for the democrats, it certainly consists in the waking up it has given them.

Looking Backward.

But, it was a unique convention, come to think of it. Very unique in many particulars. The presiding officers displayed remarkable skill in wielding the gavel, considering they were farmers and delight in being termed "wool-hat boys." They handled the convention like veteran politicians, and so admirably does Mel Branch rush things which he wants rushed through a convention, that he is being called "a pretty astute fellow" by all the boys who have a voice in political gossip. Branch was the toast of the Omaha convention for the commendable work he did there as chairman of the national platform committee. It was due to his efforts that the anti-force bill plank was finally adopted by the committee, though he had to fight for it two days before the committee in its daily sessions. Then, there is Oscar Parker, secretary of the convention. He is a young man, and claims not to be a politician. But the way he handled the business on the secretary's deak yesterday went a long way to disproving the remark. He conducted the business very much as though he was easily at home at the deak. Parker is chief clerk in the people's party

Still another said: "Oh, well, what difference does it make. Whoever gets a nomination from the third party will get every vote that party can give, whether he have merits or whether he have absolutely not a single qualification to fit him for the office to which he aspires. The only question is will the party have enough votes to elect their candidates. The lines are pretty firmly drawn in this state already. Democrats have nothing more to fear. The new party has eat its way down to the sound timber of the democracy and can go no further. What is theirs is theirs and what is ours is ours now.

So-Called Education.

From The St. Louis Globe-Democrat.

"A great deal of what we call education is not education at all, but simply, intellectual calisthenics," said Professor J. J. Sellers, at the Southern. "Sciences and languages are painfully pounded into children who will never have use for them, while matters of importance to the masses are offtimes sadly neglected. Boys are taught Latin and left in complete ignorance of commercial law; they read Homer in the original, yet know of Herbert Spencer only by hearsay; they know more of Euripides than of Shakespearse; are better posted regarding the democracy of Athens than of the democracy of Athens than of the democracy of the United States. I have heard college graduates mouthing about Pericles and Petrarch who could not tell whether Gladstone was an English liberal or an Irish policeman. They knew all about bugology and could tell whether a pebble belonged to the paleozoic or some other period, but could not tell a subpena from a search warrant, a box of vermacellifton a buside of fishworms."

Mr. Hall Remains in Possession of Southern Life.

THE HEARING IN CHAMBERS YESTERDAY.

Judge Clark Also Decides the Case of Van Dyke vs. Speer—The Latter Will Have to Disclose His Assets.

The petition of Mr. Sam Hall for the possession of The Southern Life was heard before Judge Clark in chambers yesterday. The prominence of Mr. Hall as a leading member of society, and the criminal nature of the charges preferred against Mr. Lamar as the former editor and general manager of the publication, attracted eral manager of the publication, attracted a number of people to the courthouse, and, when the case was called for a hearing yesterday morning, the apartments of Judge Clark were well filled with interested spec-

Mr. Lamar, with his dark Parisian mustache drawn out to its furthest tention and his fiery black eyes darting about in their sockets with the quick, impatient dash of a Frenchman, sat quietly by the side of his attorney, Colonel W. C. Glenn. Not a movement in the courtroom escaped his notice, and every word of the hearing was caught in a manner that plainly told of the effect it produced in his mind. Several Colonel Glenn, he laughed immoderately as clauses that referred to Mr. Hall were reached by the attorney, and, in order to conceal his amusement from the plaintiff, who sat directly opposite, he held in front of his face a large palmleaf fan.

The plaintiff, Mr. Hall, in a cool, neat fit of summer attire, sat comfortably in the neighborhood of Mr. W. P. Hill. He was apparently well satisfied with the prospect of winning his case, and the air he presented as he leaned back in his chair was a happy illustration of "Southern Life." Calm and composed throughout the hearing, his manner was boldly in contrast with that of the defendant, and, though he was interested, of course, he scarcely seemed to be listening to the evidence. The Hearing Commences.

Shortly after 10 o'clock, Judge Richard

The petition of the plaintiff was first read and Mr. A. Campbell King, the counsel associated with Mr. Hill, performed that part of the work. The contents of the petition are already familiar to the public. alleging that Mr. Lamar was neglige managing the affairs of The Southern Life, and asking that he be compelled to surrend er the books and assets.

After the reading of the plaintiff's peti-tion, the answer of Mr. Lamar was then tion, the answer of Mr. Lamar was then read by Colonel Glenn. The spectators were visibly amused by the contents of the paper, and every now and then a smile of forbidden levity crept over the sage and austere countenance of Judge Clark. Mr. Hall, however, and Mr. Jonas were not in a laughable humor, and, if they heard anything that tickled their mirth, they were very careful to hide its manifestation. They sat, throughout the reading of the paper, as solemn as church-yard owls, and, when the reading was finished, Mr. W. P. Hill arose from his seat, and, in a tone of suppressed indignation, moved that the entire answer be stricken.

"Strike out the whole answer," said Colonel Glenn.

nel Glenn.
"Yes," replied the attorney, "it is altogether irrelevant, and, besides, it is flippant

Judge Clark overruled the motion, how-ever, and stated that the answer, though a little fantastic, was clearly admissible as it stated the grievance fully and set out in detail the alleged difficulty between the par-

Story of the Affidavita

Mr. King then commenced to read from a bundle of affidavits. The first was the deposition of Mr. Sam Hall. He charged that Lamar had collected money from The Southern Life and devoted it to his own private use. He had also secured railroad passes and used them for his own personal benefit.

S. Jonas. He swore that Lamar had neglected the paper and had also appropriated its funds to his own individual use. priated its funds to his own individual use. He had managed the affairs of the office badly and was in the habit of practicing fraud upon the railroads and theaters. Lamar had also boasted to him of having made his living by getting the best of people, and from what he had seen of him hebelieved the statement was true.

Affidavits were then read from Henry De-Give, R. B. Harrison, M. M. Davieš, J. T. Deihl, J. W. Purdie and Victor Hanson, to the effect that Lamar was a yery unscrupulous man, and from what they knew of his character they would not believe him on oath.

Another affidavit from Mr. Hall denying the statements of Mr. Lamar and qualifying his answer as flippant, untrue and impertinent, was then read by Mr. Campbell. The part of the answer in which it was stated that he would take advantage of his position in society to gather up "bits of scandal," was pronounced as maliciously and knowingly false.

Lamar's Affidavits.

Mr. Glenn, in healt of Mr. Lamar.

Lamar's Affidavits.

Mr. Glenn, in behalf of Mr. Lamar, then read a number of affidavits in support of his answer. The first was from M. M. Davies, who also testified in favor of the plaintiff. He stated that he had dealt with Lamar during the last five months and had found him honest and faithful, and was willing to rely implicitly on anything he might say. The only reason he made an affidavit stating that he would not believe Lamar on oath was because of an interview with Hall, Jonas and A. C. King, who represented that he would be thoroughly justified in making such an affidavit, and that relying upon their opinion he agreed to do so, regretting his action, however, after he had signed the paper.

An affidavit was also read from H. L. DeGive, in which he stated that the only transaction he had ever had with Lamar was in regard to the sale of theater tickets. He had never heard any one criticize Mr. Lamar except Mr. Jonas and Mr. King.

A Strange Occurrence.

Mr. Glenn then read an affidavit from Mr. Lamar, in which he stated that Victor Hanson, the youthful-looking business manager of the paper, had told him during the morning that he was spirited away the night before by Mr. Hall and kept in that gentleman's room all night, and that furthermore he was tired of being lugged about by Hall and Jonas, wearing out shoe leather and getting no pay for it.

It Produced a Sensation.

The effect of the affidavit was electrical. Everybody was amazed and, with a look

The effect of the affidavit was electrical. Everybody was amazed and, with a look of astonishment, turned towards the young man, who sat in the back of the room. He was pale with excitement, and appeared unable to speak. A conference with the attorneys of Mr. Hall gave rise to a hasty affidavit, in which Hanson denied the statement and pronounced it false from beginning to end.

Extracts from Southern (Life.

Mr. Glenn then read to the court a few choice extracts from Southern Life after the severance of Mr. Lamar's connection with the paper. They are not, however, of such a character as to be repeated without soiling the medium through which they pass, and the "bits" are, therefore, comitted.

He Must Disclose His Assets

Judge Clark rendered his decision yesterday morning in the case of Van Dyke against Speer.

The decision was ready a few days ago, but the attorneys interested in the case were not present when the judge expected to announce it, and it was therefore withheld until vosterday.

not present when the judge expected to announce it, and it was therefore withheld until yesterday.

It was briefly stated and held, in substance, that Mr. Speer would have to disclose his assets, and in the event of his failure to comply with the order would be adjudged in contempt of court.

The case, it will be remembered, was tried in chambers the first of last week. The attorneys for Mr. Van Dyke insisted that Mr. Speer should disclose his assets to the court as no property of a tangible character could be found on which to levy the judgments in favor of Mr. Van Dyke. The petition filed by the plaintiff set out in its declaration that no property could be found and prayed that the court appoint a receiver. Mr. Speer regreed to disclose his property, and the issue being made, the point was carefully argued. The judge deferred his decision and now decides against Mr. Speer.

A bill of exceptions will be made out immediately and a motion for another hearing before his honor will be duly argued by the attorneys for Mr. Speer.

The 5th of August was fixed as the time for Mr. Speer to return his answer.

If the motion for a new hearing is made it will act as a supercedeas until either Judge Clark or the supreme court ant and the decision of Judge Clark is sustained, Mr. Speer will be required to answer, or else be adjudged in contempt of court.

On the 23d day of June, 1862, Stonewall Jackson's foot cavalry were in the valley of Virginia, footsore from very long and rapid marches up and down that classic valley, and often across the Potomac into Maryland, to the utter consternation of the government at Washington. At this time Jackson had made a feint in that direction, young woman. Many people wondered at the good fortune which enabled such an ungainly fellow as Zed Rainey to marry so pretty a woman. But the young husband bought a new home and supplied it with every comfort. He took a great pride in fitting it up in such a way as would please Jackson had made a tent in that direction, which, as usual, greatly alarmed the enemy for the safety of their capial iself. To check Jackson and save Washington from destruction, as they thought, General McDowell was ordered post haste from Virginia to move as rapidly as possible up the Potomac, and check Jackson's movement in that direction. This was the very obevery comfort. He work a great place if fitting it up in such a way as would please the young wife he idolized. To every one it seemed that the young couple was happy. And for a long time they were.

About six months ago Rainey began to feel suspicious of his wife's fidelity. She grew none the less fond of him, but he became suspicious that she was on too familiar terms with a young bachelor, who was the proprietor of a shoe factory in the village and who is one of the wealthiest citizens of the place. He watched her closely for some sign of the intimacy which he feared, but for a long time saw none. One day, about two months ago, while Rainey was at his store, his wife came up the street, walked past him, and entered the postoffice. She was there but a short time, and returned home as she had come. As soon as she had left Rainey entered the postoffice and asked the postmaster if his wife had mailed a letter, and he replied that she had. He then asked to see it, and, unthinkingly, the friendly postmaster randed the identical letter to him. A glance was sufficient to satisfy Rainey. The letter was directed to, the young man with whom he had suspected that his wife was intimate. And it was written in her own hand. He tore the letter open, and, rushing out of the office. went home and confronted was there.
On the 26th, A. P. Hill, with his magnificent corps, struck the enemy's rear at Mechanicsville, and, although they were in overwhelming numbers, he drove them from field. Our brigade early in the morning surprised a large body of the enemy encampment by coming up in their rear, and drove them pell-mell on, when we fatigued from an all-night march, and hungry almost to famishing, rushed into was directed to, the young man with whom he had suspected that his wife was intimate. And it was written in her own hand. He tore the letter open, and, rushing out of the office, went home and confronted his wife with it. She at once went to the young man to whom the letter was directed and told him what had happened. That young man swore out a warrent against Rainey for breaking open the United States mails. Rainey was arrested and brought to the Atlanta jail, where he was kept confined until a day or so ago, when he gave bond. Upon being released, however, he did not return to his home at Acworth. Broken hearted and sad, he says he may never again go back to the scene of his marital unpleasantness. He is willing to give up his home rather than return there. He is here in the city, stopping with a relative, and presents about as sad and dejected a picture of wrecked humanity as it is possible for a human being to present.

It was taken hurriedly, and the word was passed down the line, "ten minutes for breakfast. The hungry confederates hastily took from the fires the steaming pots of "sure enough coffee," sweetened it with white sugar, and used the ready cream, and emptied the luscious beefsteak from the cook vessels into plates ready on tables conveniently arranged, and which to them was a veritable picnic. At the word of command the troops pressed on in the direction of the Chickahominy all the morning in full hearing of the rattle of musketry and the boom of cannon on the left, where A. P. Hill was making it warm for the enemy, until about 4 o'clock in the afternoon we came up with their pickets, who were driven back and back until the historic field of Cold Harbor was reached, and upon which the enemy was found in countless numbers and well entrenched. Our brigade was held in reserve two hundred yards in the rear of the first battle line, and kept there two hours, which appeared to lengthen into a week, as the shot and shell rained about us incessantly. I shall never forget the awful din of the small arms, which seemed to come from the earth beneath us. Just before sunset the forward command was given, when we pressed through the woods, entered a clearing, and charged the enemy posted behind breastworks on the crest of a small hill. They were soon dislodged, and slowly fell back until the night shadows began falling about, when they left the field, covered with their dead and wounded, to us. The scene was the most anyful I had ever witnessed, and lent guns and swords, which literally strewed the ground, cast away by the enemy in their light; the heart-rending groans of the wounded, some in the last agonies of death, others pitcously callings for help or vater; all were so horrible that I associated the scene with hell. Where I stopped, as darkness like a pall fell upon the scene, to lie down to rest for the night, was upon the spot that had been occupied by the Pennsylvania Buck Tails. Many of them, magnificent specimens of mahnood, lay dead about me. Opening the knapsack of one, who lay at my feet, I spread out his blanket for my bed, and they are also and the was a feet of the seeking this new ones. I was in the act of seeking this new ones. A TRIBUTE OF FRIENDSHIP.

There are many mementoes to departed friends in Atlanta's beautiful Oakland cem-etery, but none more appropriate than the handsome shaft recently erected which bears the simple inscription:

A TRIBUTE OF FRIENDSHIP To the Memory of WILLIAM H. GLAYTON.

> Died January 11, 1891. "A Warmer Heart Death Ne'er Made Cold."

Born November 17, 1848.

William H. Clayton, superintendent of the central division of the Southern Express Com-pany, was universally beloved. The esteem in which he was held was evidenced by the

of a great public official than the funeral of a private citizen.

When the inexorable hand of death cut him off in the prime of manhood, the feeling acong his friends was general that some fitting testimonial should be erected by them over his last resting place.

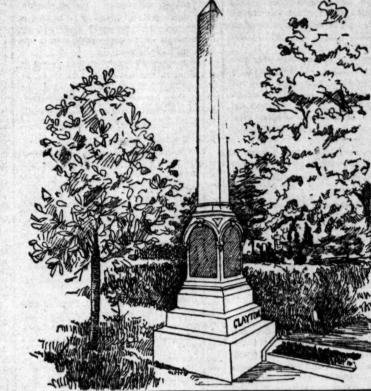

With characteristic liberfiity the general manager of the Southern Express Company headed the list with a generous donation, and this example was followed in the same liberal spirit by all the superintendents and general officers of the Southern Express Company hany.

eral officers of the Southern Express Company.

The Central division employes—route agents, agents, clerks and messengers—were all generous in this tribute to one whom they loved as a personal friend. And other friends who were not connected with the express company but who loved the genial, whole-souled Clayton, insisted on their contributions also. The result is the beautiful monument that now marks his grave.

Few men have been so universally popular as William H. Clayton.

He was generous to a fault, and his sunny smile disarmed opposition.

LOCAL GOSSIP.

In an interview, printed in a number of northern newspapers, Colonel A. G. Daniel, the well-known people's party organizer, is quoted:

"The great fight will be on the election of the state ticket in October. We feel confident of carrying Georgia by 30,000 majority. Now, our scheme is this, and it has the approval of the leaders of our party.

"Having carried Georgia, the champion democratic state of the south, in October, free have thirty days left in which to tell the news abroad. The fact that we have won such a victory will give an impetus to the people's party in every state in the union. The people will see that there is something tangible in the party.

pie will see that there is something tangible in the party.

"In the presidential election to follow in November we will fairly shell the woods. The south and the northwest will wheel into line for Weaver and Field. We will carry staten enough to give them the necessary 223 votes, and Weaver will be inaugurated president on the 4th of March.

"We do not fear the force bill. It was a scheme between the old parties—one to threater the south with the force bill, the other to kill the silver bill, and thus between them strangle the south. It does not bother us."

Forget Her Number.

Here is a good story of Senator Wolcott, of Colorado, told by The New York Sun:

When he was a young man he was, as now, attorney for several large railway corporations. He was regarded by the gentler sex as a confirmed bachelor, proof against all the advances and charms of matrimony. A lady in the southern part of the state desired a pass to Denver. She wrote to a friend, who was well acquainted with Mr. Wolcott, asking her to request a pass from him, and, like all women, she wrote a postscript, which in this instance was as follows:

"P. S.—I wish you would also send me one of those corsets; the kind you wore when I was last in Denver. I think they are just too lovely for anything."

Her friend being in very much of a hurry and momentarily forgetting all about the post-

and momentarily forgetting all about the post-script, endorsed a request on the back and forwarded the letter to Mr. Wolcott. A reply

forwarded the letter to all came promptly, as follows:
"Dear Madam—I enclose a pass, as requested, for your friend, Miss—. I would send her the corset, but have forgotten her number. Very respectfully,
"E. O. WOLCOTT."

The Day on the Floor of the New York Stock

NEW YORK, July 21.-The stock market today once more wore an appearance of ac-tivity, especially during the forenoon. When the remains of yesterday's spurt were worked off the same stocks that were so prominent yesterday led the way, Sugar being first in point of activity, while advances in Burling-ton and Northwestern were causily as large point of activity, while advances in Burlington and Northwestern were equally as large, the last named stock being helped by the statement of earnings. Among the inactive specialities, however, there were more substantial gains, Edison Electric Co., Evansville and Terre Haute and Manhattan being the most consplications and all rising over 1 per cent. Besides the stocks named St. Paul, Atchison and Louisville were paramount in the dealings, but their upward movements were moderate, while fully sympathizing with the strength in the leaders. The upward movement was brought to a halt by the announcement of the withdrawal of Burlington from the Western Traffic Association, and the early improvement in that stock was afterward wholly lost and material concessions from the best figures was established in the rest of the market. The strength of the new builtsh feeling, however, sustained the market and no break was seen in any portion of the market, the most serious effect of unfavorable news being the restriction of business to its former limited proportions. As an offset to the general decline in the late trading hour the strength of the Vanderbilts was most grafifying. Lake Shore reaching its highest point in the last bour. There was considerable realizing at that time, hastening the downward movement which had gathered force, but while the market closed rather heavy, it was quet and almost everything traded in showed some advance over the figures of last evening. Sugar rose 11-18, Manhattan 21-2 and Tennessee Coal 11-2 per cent. Sales of listed, 210,000 shares; unlisted, 48,000.

Exchange quiet and atsedy at 485 g46%; sommercial bills 486,4848.

Money cas at 15/62, closing offered at 2. and Northwestern were equally as large

J. S. Rache & Co.'s stock Letter.

By Private Wire to B. W. Martin, Manager.

NEW YORK, July 21.—The market opened with Europe selling very sparingly, their sales amounting to but 4,000 shares. Sugar was the main point of interest at the opening and the stock was pushed up another 2 per cent, and it was said the dividend would be raised to 10 per cent annually and that a 21-2 per cent, unstream dividend would be delared in 10 per cent annually and that a 21-2 per at quarterly dividend would be declared in ptember. Mr. Knight, who holds a few llions of the stock, died today, but this did taffect speculation. The Keene interest to have been putting up Sugar and Cordage, attituded the campaign against shorts today divers excessful in so far that fully 40-20 shares were covered today. One promist bear operator alone covered over 20,000 trees and the short interest is greatly reced. Prices held firm until 2 o'clock, when became noised around that Chicago, Burgton and Quincy had withdrawn from the estern Traffic Association. This found my believers, although the report is not infirmed. Still, we believe there is someng in it. Rates out west are anything but disfactory and secret rate cutting is going all the time. Colorado rates go into effect morrow and this reduction affects the Rock and, Quincy and Atchison. The reduction counts to 15@25 per cent all around. The change market was fairly steady, but it is rd to say if any more gold is going out.

the way we believe cotton would be materially higher. During the afternoon the market was slightly easier on a report from Manchester that the masters there would insist on 10 per ceni reduction in wages or short time. Later dispatches say the strike will probably be post-poned some time. The market closed quiet and steady at about the highest prices of the day on a more encouraging outlook from Washington regarding the Hatch bill. Little can be said of the market until this legislative roorback is out of the way.

By Private Wire to B. W. Martin, Manager.

NEW YORK, July 21—The cotton market was extremely duil. However, prices were firm and slightly higher during the day than lest night's close. Liverpool was steady and Manchester reported large spot sales and an upward tendency. There is no material improvement in the crop outlook. All that can be said is that no serious damage has yet occurred, but unless the weather becomes more favorable prospects of a largely decreased yield will certainly grow more certain. Outsiders seem very favorably disposed towards the market, and are only deterred from buying owing to the uncertainty surrounding the action of the senate.

THE CHICAGO MARKET. Features of the Speculative Movement in

Grain and Provisions.

OHICAGO, July 21—The only feature of special interest in the trading on the board today was the flurry in wheat shortly after the opening when the shorts became frightened at the strength of that cereal and rushed to cover. The wheat market started quiet at a slight decline, with September at 78 gc. There was no appearance of a prospect for an active business for some minutes, but when the price began to stiffen the shorts commenced to find difficulty in standing for long at a time in one position, but kept shifting their position in an uneasy manner while an advance from 78% to 78 gc was in progress, and then made a dash position in an uneasy manner while an advance from 78% c to 78% c was in progress, and then made a dash for the pit to cover their lines. Fifteen minutes thereafter a lively business was done, accompanying a quick spurt to 79% c, with perhaps a few sales as high as 79% c. At 79c the scare became intense, and then nothing could be bought under 79% c. After a few small fluctuations that is where the price rested.

Corn was rather, from Sentenuber convend at 48% c.

Corn was rather firm. September opened at 48%c, sold at 48%c, then went to 49c, off to 48%c, held steady at 484@49c. There was a reaction following that of wheat later in the session, and the close for September

was at 48%c.

Oats made a gain of %@%c, ruling firm in sympathy with the other cereals. The market was very dull.

The provision market stood the test of free selling by the longs without breaking to any extent. Offerings were heavy and by rownings if tyra, but other promises. were heavy and by prominent firms, but other prominent concerns appeared quite willing to absorb the offerings at concessions in the price, which were made. Pork closed 10c lower, lard 21/2 lower and ribs 12/2c.

By Private Wire to B. W. Martin, Manager. CHICAGO, July 21.—Wheat showed considerable strength during the first part of today's CHICAGO, July 21.—Wheat showed considerable strength during the first part of today's session. Most of the news was bearish, but the feeling was firm and the buying good. Early cables were firm but showed no particular improvement. Clearauces were very light, being only about equal to 216,000 bushels wheat and flour from all ports. Soon after the opening the market became very strong, advancing quickly on quite large buying by several leading houses at a time when very little was offered. The bulls argued that it must be a very strong market to advance I cent without apparent reason for doing so. This logic was good, but as soon as this buying ceased prices immediately receded slowly, and the result was quite a number of shorts had covered, finally closing easy about 1-4 cent below the opening, and wil likely sell lower tomorrow. The only damage we heard reported today on any kind of grain, was a report from Duluth confirming and repeating the damage to wheat reported yesterday by rust in the northwest.

The early strength in corn was caused almost entirely by the good demand for cash to fill July sales. Trade has been very light in futures and largely local. Toward the close the market became quite easy on realizing sales, which closed the market about where it opened.

Outs held moderately well today in a dul

zing sales, which closed the market about where it opened.

Oats held moderately well today in a dull and narrow market, closing a shade above yesterday.

Provisions opened easy and lower, prices at the yards this morning being weak, large local holders here not supporting prices, and we think sold short ribs during the day freely.

## THE J. W. TYNAN Machine Plant FOR LEASE.

The long established, fully equipped and excellently situated machine, boiler, blacksmith shops and brass foundry of the late J. W. Tynan, located W. Broad, Indian and River streets in Savannah, Ga., are offered for lease for a term of years.

The shops contain nine (9) lathes, planing and shaping machines, radial and upright drills, improved pipe threading machines, steam hammers, boiler rolls and punches and all other tools required in first-class shops.

In connection with the above lease a large and valuable lot of patterns and stock of high grade machinery supplies will be offered for sale to the lessee. There is ample space for the erection of an iron foundry.

This business was successfully conducted by the late J. W. Tynan for more than twenty-one (21) years and has had the patronage of the best class of trade in this section.

2,500 PEOPLE WERE ON HAND

Witness the Laying of the Corn Stone of the Baptist College-Brilliant Oratory-Great Enthusi

The crowd at Manchester on Tuesday

political occasion announced in this No political occasion announced in this political year has assembled in Georgia a multitude comparable in numbers and quality with the cloud of witnesses who stood around the corner stone of the Southern Baptist Female college at Manchester from the hour of 11 o'clock a. m. until the brilliant exercises concluded with the invitation to Major Sloan's famous barbecue at 1:40 o'clock p. m.

In spite of an early sprinkle and lowering clouds that ruled the morning, the 8:30 o'clock train carried ten well-filled coaches out the West Point road to the spacious and beautiful grounds of the college. At 10:30 o'clock the brass band playing at the union depot made the rallying cry for crowd nearly three times as large, and t that hour a huge train of eleven coaches literally packed with ladies and gentlemen rolled out of the depot and moved swiftly out to Manchester, making the run in twenty-two minutes.

And such a crowd as it was not a rowdy or a rough—not an idle, useless spectator, but a solid body of the very best people of Atlanta and of Georgia. The most elegant people of Athens were there, and ing delegations from Griffin, La-ce, Rome, Washington and other cities, with a liberal representation from states. And a more charmed and delighted and thoroughly satisfied crowd lever gathered and dispersed in good humor

A spacious covered speakers' stand had been erected at the front entrance of the college from the left of the corner stone. In front an ample bush arbor containing seats and a perfect shade for 1,200 people, had

Precisely at 11:25 o'clock Dr. Hawthorne, in the absence of Colonel Tom Glenn, the chosen chairman, was called to the gavel as presiding officer, and introduced the occasion in one of those strong, earnest, magnetic and eloquent speeches for which he is famous over the south. He spoke of the plan of the college, and of his absolute faith in the future of the noble institution and of, the ideal community which would surely cluster around that and the other institutions now building. He paid a high tribute to the iron nerve and determination of Mr. W. L. Stanton, the chief factor in building the college, and to the brilliant and indefatigable energies of Colonel E. M. Blalock in building the town. His speech was permeated with good humor and earnestness, and was liberally punctuated by applause.

Before the corner stone was turned over to the Masons. Captain Rouseau, the archi-Precisely at 11:25 o'clock Dr. Haw-

Before the corner stone was turned over to the Masons, Captain Rousseau, the archi-tect of the building, made a few hearty remarks, indicative of his faith in the com-

remarks, indicative of his faith in the community and its institutions.

The ceremonial of laying the corner stone was conducted with unusual impressiveness and solemnity by Deputy Grand Master Dr. John S. Lawshe. It was a beautiful ceremony and evoked the admiring attention and close following of the great audience. The stone was formally and accurately laid, and the blessings of Almighty God earnestly invoked upon all that was builded upon it.

At the conclusion of this pleasing incident, Dr. Hawthorne introduced in a felicitous manner Bishop Fitzgerald, of Georgis. The bishop's genial face and hearty manner caught the crowd instantly, and his excellent speech did more. It kept them in a continual stir of happy mirth and earnest applause from beginning to end. It was the ringing, happy, wholesome, generous speech of a loving, big-hearted, broadminded, Godly gentleman, and the crowd was simply captivated by the bishop's humor and eloquence and grand sense.

Colonel John B. Goodwin, the popular Atlanta legislator and lawyer, was next lettered as the presentatives of the Colonel John B. Goodwin, the popular Atlanta legislator and lawyer, was next introduced as the representative of the great fraternity of Odd Fellows, who had chosen Manchester as the site for their state orphans' home. Colonel Goodwin made an eloquent and ringing speech, pledging Atlanta's sympathy and support to Manchester, and declaring that the Odd Fellows were only waiting a few formal preliminaries before beginning work upon a noble building, the money for which was already raised.

preliminaries before beginning work upon a noble building, the money for which was already raised.

Governor Northen and Mayor Hemphill were detained by executive business, and sent excuses, and Dr. Hawthorne then introduced as the next speaker upon the programme Hon. John Temple Graves. The national reputation of Mr. Graves as a platform speaker raised the expectation of the audience to the highest pitch, and it was not disappointed. With inimitable grace and tact, Mr. Graves caught his hearers at once and held them throughout a singularly, appropriate, witty, eloquent speech. He charmed his audience and scored a great success. Dr. J. W. Lee was introduced as the last speaker on the programme, and in his own easy and happy way led the audience along with him in sympathy and applause through a brief but pointed and eloquent speech.

After a few congratulatory remarks upon the great audience, the auspicious day, the charming programme and the brilliant outlook for Manchester, Dr. Hawthorne called upon Rev. Henry McDonald to pronounce the benediction, and the audience adjourned to the waiting tables near at hand, whereon Major Sloan and his assistants had spread one of the best prepared and most appetizing and bountiful barbecues ever spread in Georgia. The multitude was royally fed, and of the fragments that remained there was taken up many basketsful.

At 3 o'clock the homeward-bound trains began to carry back the crowds, and by 6 o'clock the last of the multitude had left the lovely grounds.

for Manchester. I heard but one opinion expressed in the crowd, and that was that the company had redeemed its pledges, had amply laid the promised foundations and that Manchester deserved to be, and would be, all and more than its projectors prophesied for it.

People who went there to criticize came back to praise, and people who went there doubting came back convinced.

Just as the first train was about to start a lady from a distant state got off and went back to conclude a purchase of a couple of lots which she had been examining. She declared that the arguments, joined to a personal observation of the facts, could not be resisted, and investment was logical and natural. Dozens of the lovely half acres were sold on the spot, and when it was made known that those splendid lots, 100x200 feet, were being sold at \$400, 10 per cent down and 5 per cent monthly until paid, there were scores of people of the best degree who expressed the intention of returning to the property at a very early day to select lots and to buy them.

After Tuesday the future of Manchester is assured, and the ideal suburb is hereafter a "go."

PEACE REIGNS IN EARLY.

Blakely, Ga., July 21.—(Special.)—As per published notice a large number of the citizens of Early county met in mass meeting at the courthouse yesterday to transact business of much importance to the democrats of the county.

It will be remembered by the readers of The Constitution that a primary election was held on the 2d of July to determine the county's choice for a candidate for congress, to represent the second congressional district. About two hundred votes were polled on that day, O. B. Stevens receiving 196, a great number of democrats refraining from voting on that day, believing that the call for this election was entirely illegal, and knowing it was called regardless of and in defiance of the recommendation of the district executive committee, which had fixed the 30th of July as the date for holding said primaries throughout the district.

A great number of Mr. Stevens's supporters were present today, and submitted the following resolutions which were adopted:

The democratic party, assembled in mass meeting this day, upon montion of R. H. Powell, W. C. Sheffield was selected as chairman and A. J. Fleming and A. H. Robinson as secretaries. The adjustment of the differences by the passage of the above resolution being apparent to all, and no other business coming before the party in convention, the meeting was adjourned upon the motion of H. ed Across the Sky.

Chokee, Ga., July 21 .- (Special.)-Parties returning from a prayer meeting near the river Wednesday night report a strange freak of lightning. A dark cloud seemed to hang very near the tree tops, from which bright flashes of light assumed a circular form, having the appearance of hoops rolled rapidly across the sky. Some of the negroes were greatly alarmed, declaring it was a "sign." No such phenomena was ever witnessed here before.

The Lightning Stroke in Villa Rich.

The Lightning Stroke in Villa Rica.

Villa Rica, Ga., July 21.—(Special.)—During a thunder storm yesterday lightning struck a negro house, in which were sitting Dick Barnes, Dan Arney and John Ware, all enjoying their pipes, and talking. John Ware was sitting in a chair leaning against the arch over the fireplace. The bolt passed Arney, knocking his pipe out of his mouth and passing through a cat, killing it instantly, and through John Ware, killing him instantly. Arney says he was looking at Ware when it struck him. He says he (Ware) did not move, simply let his hands drop, and his head leaned over. He did not even drop out of the chair. Dick Barnes was thrown to the floor. A shotgun was torn to pieces in an adjoining room.

Hamilton, Ga., July 21.—(Special.)—Yester-day the storehouse of Mr. M. M. Jones was entered and his money drawer was robbed of all its cash. Mr. Jones was at church, and when he returned to his store he noticed his shortage at once, and today attending church he placed a watch inside of the house and locked up as usual. Soon the Burglar made his appearance and was caught inside of the house. He owned up and brought his confederate's name to light. The one caught today was named McAfre and his partner was William Spence. These boys were raised here in our town. It was a lucky cateh.

HOW IT BURST.

Thomas C. Smith on the Georgia-Alabama Collapse.

HE WAS BROOKLYN'S REPRESENTATIVE

In the Board of Directors, and Says the Failure of the Barings, Followed by the Drop in Iron, Was the Cause.

From The Brooklyn Eagle.

It has been widely published that among the officials of the defunct Georgia-Ala-

the officials of the defunct Georgia-Alabama Investment and Development Company, whose collapse has affected about fifteen thousand stockholders, was Thomas C. Smith, one of the oldest and best known residents of the seventeenth ward of this city and president of the Seventeenth Ward bank. Mr. Smith is one of the very wealthy men of Brooklyn. As manufacturer, as investor in real activations of the seventeenth ward to the seventeenth ward bank. vestor in real estate and other enterprises, as financier, he has borne the reputation of profiting largely on everything he touched. Old age has not impaird his faculties, for also, one of the brightest, shrewdest and most vigorous and active of business men in the city, if not in the two cities, for his reputation and his operations long ago pass-ed local limitations, although it was in Greenpoint that he built up one of the greatest manufacturing concerns in Kings county. The magnitude of great projects never appals him. It rather invites him, but he was never known to leap in the dark or to invest even a single dollar recklessly He is known in the business and financial world as a safe, conservative man, who very seldom makes even a trivial mistake.

That such a man as Thomas C. Smith should be mixed up in the bursting of the great Georgia-Alabama bubble was, there-fore, a thorough surprise to all who know him. Such wonder as they had they kept to themselves, in his presence, for Mr. Smith is not the man to be lightly approached on matters of concern to himself from mere motives of curiosity, especially when those matters have not turned out to his liking. matters have not turned out to his liking. Suggestive printed statements that he was an officer in the Georgia-Alabama scheme were read by him in cold disdain. It was apparent to his friends that, with his long career to sustain him, he was not now going to condescend to say one word in his own

career to sustain him, he was not now going to condescend to say one word in his own defense.

\*An Eagle reporter succeeded yesterday afternoon in catching Mr. Smith in his room in the Seventeenth Ward bank during one of his rare intervals of leisure or seeming leisure. Mr. Smith listened quietly while the reporter intimated that any statement he cared to make concerning the Georgia-Alabama company would, as coming from so prominent a Brooklyn man as himself, be of special interest to the Eagle's readers. After a moment's meditation Mr. Smith said:

"My connection with the company has been the subject of newspaper innuendoes, all made in a bitter and savage spirit. I had determined that I would not notice them, but this request from The Eagle, coming as it does in a respectful and courte-ous manner, seems entitled to fair consideration and a frank reply. The story is a long one, but its main features can be soon told."

The project, Mr. Smith went on to say,

ation and a frank reply. The story is a long one, but its main features can be soon told."

The project, Mr. Smith went on to say, was started under as reasonable and promising conditions as any that had ever been brought to his attention, under much more favorable auspices, in fact, than the Birmingham scheme, which, as every one now knew, had turned out enormously profitable to the investors. The Georgia-Alabama scheme was predicated on the development of the iron resources of the region, on the building of railroads, the bringing of industries to Tallapoosa and the selling of Tallapoosa lots. The assured iron products were relied upon as sufficient to pay a dividend on what the stock cost the stockholders of some 6 per cent. This was predicated without inflation, but on a fair business calculation, recognized as such by conservative capitalists. When the stock got to be put on the market and matters had gone too far to be stopped, the Barings, of London, who had contracts signed for the building and equiping of the proposed failroads, failed, and all the contractors, frightened by that great failure, gave up and reaused to sign. This was a great blow to the enterprise, but its projectors still had faith and a well-grounded faith, in it, for the iron was, after all, the solidest and the surest thing they had to look to. Just then, however, iron began to drop from large profits to small profits; then to no profit, finally selling below cost of production. The result was inevitable: The iron furnaces stopped and the result is known to all. Yet, what seems one to the form the surest thing they had to look to. Just then, however, iron began to drop from large profits to small profits; then to no profit, finally selling below cost of production. The result was inevitable: The iron furnaces stopped and the result is known to all. Yet, what seems now to have been an inflated bubble, launched out for the purpose, almost, of swindling, was started as a fair and reasonable speculation—a gigantic speculation, it is true

"What do you care to say about your own interest in the scheme?" asked the reporter.

"Simply this. I believed in it and I was elected one of the directors of the company, not, however, with my consent. But before I was consulted my name was placed on the published list of directors, and then I was loath to withdraw, especially after the failure of the Barings. While I was director I received letters from all parts of the country—from school principals, teachers and other persons of moderate income and small savings, asking me if the enterprise was one in which they could safely invest their little capital. To all such persons I replied that the project, looked at even in its most promising light, was, after all, merely a speculation and that nobody should go into any speculation who could not afford to lose every cent invested. In all speculations the possibility of losing exists and people with only a little capital I have always held and so advised, should put that capital into a sure thing and not be tempted to risk it all in speculation."

"Would you mind saying what your own losses are?"

"No, for it will show that I had faith in the project. My precise losses I cannot tell you, for I have not yet figured them up, but I have lost, probably, from \$8,000 to \$10,000."

Mr. Smith added that while he never approved of the lurid advertising methods of

NEW ORLEANS TO NEW YORK.

A Fast Schedule Will Soon Be in Operation Between the Two Cities.

The Atlanta and West Point and the Louisville and Nashville railroads, after next Sunday, will run a fast schedule between New Orleans and New York.

It will greatly facilitate the means of transit and intercourse between the sections and will prove a very great convenience to the cities and towns along the route.

The train will leave New Orleans at 7:25 o'clock in the afternoon, arriving in Montgomery at 6:30 o'clock the next morning and reaching Atlanta at 11:45 o'clock Leaving Atlanta at 12:0'clock noon, it will reach Washington city at 7 o'clock the next morning. Leaving Washington at 7:20, it will arrive in New York at 1:20 o'clock p. m.

Connecting at Washington with the northern express, a train leaving the national capital at 7:50 o'clock, will arrive in Boston at 8:30 o'clock p. m.

Thus a person living in Atlanta can leave the city at noon and arrive in Boston in time to attend the theater the following night.

It will be the fastest train on record, and will be elegantly fitted up. A vestibule and dining car of the latest pattern, it will suit the taste of everybody, and will be a great convenience to the railroad tourists of the south.

THE ELECTROPOISE. WE THINK Little of It When Well, but When

Sick, My!

Office of J. G. Henderson, Room 13, Old Capitol Bnilding, Atlanta, Ga., July 8, 1892. Mr. W. H. Witherspoon, President.—My Dear Sir: For thirty years I have been suffering with a diseased condition of stomach and liver, and having heard much of your Electropoise I concluded to try its effect upon these organs. At first I used the 'Poise at high power, experiencing no particular benefit save the cure of a most vexatious dandruff which had for many years pursued me like the "Shirt of Nessue," causing an intolerable itching, frequently accompanied by pimples on the scalp. I was then directed to make local application. This produced considerable commotion about the afflicted organs, unfitting me for business for two days, but had the happy effect of leaving my liver apparently well, and I believe a few more similar applications will cure my chest and stomach.

My daughter has long been a great sufferer from fever and bowel trouble, necessitating the spending of her summers in north Georgia. In two days after I applied the instrument she was rid of both allments, so that this enforced trip abroad and expenditure of considerable money has been happily averted, at least for this summer. I have also treated according to instructions and with most happy results several cases of measles in a branch of my family.

When well we think little of the Electropoise, but in case of sickness I consider it almost indispensables.

A great crowd saw Schmidt as he walked p the diamond to receive the crown, and he crowd really felt sorry for him when he alled to play his part as he had been compted. Nine good, strong Irishmen bleeted to serving a Dutch emperor and he resolt was a success.

Donaghue started the fun by driving chmidt's first ball right towards Kirby, the fumbled it. Then Long got his first he same way, but Donaghue went out at a cond. Smith opened the second with a clean at to left, and was advanced by Graham's single. Pop, through his runner, Schabel, stole third, but Graham was just then caught at first. Ardner flew out to York, but Dixon manufactured a two-bagger off material supplied by Schmidt, and brought Smith home. Wadsworth struck out, and Dixon was left on second.

Veach made a hit in the second, but never went beyond third, Weddige, Gillen and York going out in rapid succession.

Donaghue, Long and Hill made a quick out for the side in the third.

Has Been Called Home. Manager Morton received a telegram yester-day afternoon during the game, announcing the serious illness of his mother. The tele-gram demanded his immediate return home, and last night Manager Morton left. He will be absent until a change takes place. Char-ley Morton's many friends hope he may find his fears groundless when he reaches his home in Akron.

Memphis and New Orleans Strengthening.

Memphis, Tenn., July 21.—(Special.)—The Memphis team reached home at 4 o'clock today, went direct to the ball park and signalized their return by losing the game to New Orleans. Poor fielding marked the playing of both teams and save for the closeness of the score the game was without particular interest. Memphis tried three of her pitchers during the game, and only one of them, Morris, was effective. A base on balls and three hits enabled New Orleans to score twice in the first inning. Powell's hit, Kearns's overthrow and poor fielding allowed the visitors two more runs in the fifth; and Stouch's hit and some more errors added another in the sixth. Keith's hit and Meaney's home run gave Memphis two in the second. Plock's overthrow to first and Kearns's hit in the third increased the runs by one; and in the minth inning O'Connor hit for two bases, stole third and came home on a long fly out.

Memphis will have a reconstructed team on Monday to begin the new championship season. Manager Craves has signed Catcher Merritt and Right Fielder Lally of the defunct Columbus club, and Pitcher Dewald and Shortstop Ely, of the Toledos. They will accompany him to Memphis at the conclusion of the Columbus-Toledo series Saturday. Captain Campau, Abbey, McColland and Stevens will probably go to New Orleans. Score by innings:

They Say They Were Robbed. Birmingham, Ala., July 21.—(Special.)—The Pirmingham team has to contend with such umpires as Whalen and Wilson, but they were umpires as Whalen and Wilson, but they were never, even by Wilson, more deliberately robbed than by Hofford in today's game with Chattanooga. The game, it is true, was noted for dumb plays, but none of these plays cost the locals a thing, not even a base, and if Hofford had been fair on Mauck's pitching the locals would never have been defeated. It was another one-nothing game. Goose eggs were credited to each team up to the eighth. In this inning McGann was presented first, sacrificed to second and on Hill's hit started to third. Third Baseman Niles started to field the ball and the runner got in his way. Hofford allowed him to go safe to third against all rules of the game. He then scored on a slight hit by Sommers and slow fielding. This ended the run-making.

Score by imings:

Summary—Earned runs, 0; bases stolen, Broderick, McMahon, McCann, Sommers; double plays, Niles to Klusman, McMahon to Ulrich to Klusman, Ulrich unassisted; bases on balls, off Mauck 4, off Baker 2; struck out, by Mauck 8, by Baker 7; passed balls, Sweeney 2, Doyle 2; wild pitch, Mauck 1. Time of game—one hour and fitty-five minutes, Umpire—Hofford.

This Lost the Pennant. Montgomery, Ala., July 21.—(Special.)—The story of today's struggle is soon told. Mobile pounded the life out of Behne and won the game in the eight hinning by scoring five runs, which made their total fifteen. Both sides showed and after Rahne was knowled and sugged, and after Benne was knocked out Agan tried fruitlessly to redeem the game. Mr. Fitzgerald, a new man who wants a posi-tion as umpire in the league, officiated and his decisions were away below par. Score by innings:

Baseball in Milledgeville. Baseball in Milledgeville.

Milledgeville, Ga., July 20.—(Special.)—The finest game of baseball yet played here was that between Milledgeville and Jeffersonville this evening, resulting in a score of 7 to 2 in favor of the locals. Both teams played with a dash, and the fielding of the visitors was perfect, and Foster and Reeves, of Madison, held the points for the locals and their work kept the visitors down. Jeffersonville has a great team of athletic young gentlemen and the three games to be played with them will draw great crowds to the park. Nearly, a of the two teams this evening.

A hotly contested game of amateur ball was played at Grant park yesterday morning between the second Newman Athletic Club and the Park nine. The N. A. C's. beat by a score of 4 to 1.

Batterles—Stillman and Dorsey; M. Smith, McGregor, H. Smith and Allea.

Ike Flateau came up with the Macon team and enjoyed the game from one of the boxes.

Schaub did some fine work behind the bat yesterday, and held the erratic Schmidt as no one else could have done.

Motz's first base play was a great feature of the game.

Schmidt is said to be the best sprinter in the Southern League.

Pop Smith came in for four pretty singles yesterday out of five times at the bat. The other time he gave up a good sacrifice.

Long and Motz were the only two men who failed to get a hit off the Dutchman. Dixon got a double and a single both, and figured in the run getting.

Atlanta got five singles in the fifth and, aided by a base on balls, a sacrifice and two stolen bases, they netted five runs.

Macon did her hardest hitting in the ninth, a single by York and a home run by Gillen.

Colonel Jake Emanuel, who carries an excess baggage ticket on every baseball park in the Southern league, came up with the emperor yesterday. The colonel still wears that old-time pleasant smile.

Ross White, always happiest when he sees a ball game, will try to trade a happy smile today for the frown he brought away from Brisbine park yesterday.

Phil Welchen came up to win a house and lot on Balley's work. Phil's friends hope that he will win. But Atlanta—well Atlanta ain't built that way just now.
